Re: Evaluation of Sufficiency of Information Submitted

Application proposes adding a new well on a farm located approximately 8.25 to 10.5 miles south and 1.75 to 3.25 miles east of Malta and to abandon a well on the farm. Currently 8 water rights allow for the diversion of up to 11.75 cfs from 5 wells located on the farm for the irrigation of up to 972 acres within the system. The application proposes to limit the amount of water to be diverted from the new well to 3.0 cfs. Therefore the filing fee for this transfer is based on the 3.0 cfs, a condition limiting the new well to a maximum diversion rate of 3.0 cfs will be added to the conditions of all 8 water rights.

- **Authority to File:**

The applicant is listed as the current owner of the rights according to IDWR records. The ownership of the rights will not change as a result of this transfer. According to the Secretary of State web site Jeffrey Johnson (Manager) is authorized to sign on behalf of J7, LLC.

The rights involved with the transfer were decreed in the SRBA. Aerial photography indicates the use of the rights in recent years. Therefore forfeiture of the rights involved with the transfer does not appear to be an issue.
