PROOF ACKNOWLEDGEMENT LETTER

RE: Permit No. 63-33495

Dear Permit Holder(s):

The department acknowledges receipt of the proof of beneficial use form submitted for the above referenced permit. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water.

During my review of your proof and water right permit, I found that condition no. 7 of this permit might not have been completely complied with.

Condition no. 7 of this permit which states:

"Prior to diversion of water under this right, the right holder shall install and maintain a measuring device **and lockable controlling works** of a type acceptable to the Department as part of the diverting works."

I recommend that this condition be completely complied with immediately and prior to the field examination. Enclosed is a copy of this permit for your information.

Be advised that Section 42-248, Idaho Code, requires you or the owner of this water right to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office, or at the department's website at: www.idwr.idaho.gov

If you have any questions concerning the field examination, please contact the Western Regional Office of the department in Boise, Idaho 208-334-2190.

Sincerely,

Darla Block
Technical Records Specialist
