RE: Application for Amendment of Permit No. 29-7869

Dear Mr. Rigby and Mr. Wood:

On July 13, 2013, the Department sent George Katsilometes notice that permit 29-7869 needed amendment in order for IDWR to move forward and issue a license. This prompted a series of correspondence between myself and Rigby, Andrus & Rigby Chartered concerning the review of permit 29-7869 for licensure. For your convenience, I am enclosing a copy of my last written correspondence dated May 23, 2013 as well as a response from Robert Wood dated June 17, 2013.

After receiving the June 17, 2013, if memory serves, Mr. Wood and I scheduled a meeting where we could meet, with Mr. Katsilometes, and discuss the proposed amendment in person. That meeting was canceled and was never rescheduled.

I would like to move forward again and issue a license in connection with permit 29-7869. However, I can only do that if the permit is amended to reflect the actual development in connection with the permit. Because the point of diversion and place of use was developed differently than permitted, the department cannot issue a license without an amendment of the permit.

I have enclosed an Application for Amendment of permit 29-7869. Please review the amendment and when satisfied, sign and return the amendment with the required fee of \$100 within 30 days. If the Department does not receive the amendment within 30 days, pursuant to Idaho Code §42-219(8) the Department may prepare an order voiding the permit.

You may contact me at (208) 287-4916 if you have any questions regarding this matter.

Respectfully,

Craig L. Saxton
Adjudication Technical Analyst
