RE: Water Appropriation Permit 95-16498

Request for Information

Dear Permit Holders:

In 2013 IDWR issued permit 95-16498 authorizing the development of a right to divert 0.4 cfs of water from Rathdrum Creek, tributary to the Sinks, within Section 30, Township 52 North, Range 04 West, B.M., for domestic use.

The final step in the water appropriation process is the issuance of a Water Right License. By issuing a license, IDWR recognizes that water has been put to beneficial use in accordance with the permit. For your convenience, I am enclosing a copy of permit(s) listed above.

In an attempt to expedite the licensing process, IDWR would like for you to provide the following information regarding your permit:

Point of Diversion Information:	Photographs of the pump and the point of diversion. If possible, GPS coordinates of pump location – latitude/longitude. At a minimum, please mark the point of diversion information on the provided map.	
Pump Information:	Make, Model, Serial Number, and Horse Power of Pump or a picture of the pump plate	

Permit 95-16498 includes the following conditions:

A fish screen of 0.25 inch or smaller mesh shall be installed and maintained at the point of diversion.

Please provide:

Photographs of:	The fish screen on the pump intake or other fish passage restriction device.	
Screen Design Information:	Must be 0.25 inch or smaller mesh.	

The photographs submitted should be of sufficient number and at sufficient angles in order to confirm compliance with the conditions listed on the permit.

Please confirm if water from the groundwater well will be used for external use (irrigation of the property) or only for use within the home.

You can request that IDWR personnel go into the field to collect this information accompanied by yourself or your representative. For this to occur, please contact me by July 30, 2014. If you would like your representative to be present, please have the name, telephone number, and email of your representative. Be aware that you and/or the representative must be available to be contacted and for scheduling of the required visit within a timely manner.

In addition, I have enclosed a map of the identified Place of Use for Permit 95-16498. Please verify that this location is correct. If this is incorrect, please contact me.

Please provide the requested information by July 30, 2014. If I do not receive the requested information or have been contacted by you by July 30, 2014, I will take action to void your permit under the provision of Section 42-219(8) of the Idaho Code.

If you have any questions, please contact me at 208-287-4800. Thank you for your attention to this matter.

Respectfully,

A handwritten signature in black ink, appearing to read "Danielle Favreau", with a stylized flourish at the end.
