CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 3.5 afa per acre at the field headgate for irrigation of the lands above.
11. Use of water under this agreement will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 02.

12. The use of water for irrigation under this right may begin as early as March 1 provided other elements of the right are not exceeded. The use of water before March 15 under this remark is subordinate to all water rights having no subordinated early irrigation use and a priority date earlier than the date a partial decree is entered for this right.

Dear Renter:

Please find enclosed a receipt in the amount of **\$1015.75** and a copy of a fully executed Water Supply Bank Rental Agreement in connection with the rental of 219.5 af acre-feet of water for irrigation of 45.0 acres during 2014. Upon receipt of this fully executed agreement, you are authorized to divert water in compliance with the conditions of water use described in the agreement.

Pursuant to the Water Supply Bank Rules, 90% or \$642.60 of the rental fee will be paid to the lessor(s) of water right 2-7062 and 10% or \$71.40 will be retained by the Department to offset administrative costs. For water rights 2-7059, 2-7275, 2-7279B and 57-7022, the rental fee of \$301.75 will be retained by the Department to offset administrative costs since you are the owner of the rights.

WATER RIGHT NO(S). 2-7059, 2-7062, 2-7275, 2-7279B and 57-7022**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

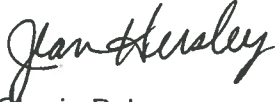

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 219.5 acre-feet for the 2014-2017 season. The rental fee for 2018 was calculated based on a rate of \$ 20.00 per acre-foot times a diversion rate of 219.5 acre-feet. An annual payment shall be received by the Department prior to the execution of this agreement and prior to March 15 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$1015.75 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. The fee for rental of the water is \$3,731.50 for 2014-2017 and \$4,390.00 in 2018. Ten percent (\$373.15/\$439.00) will go to the Department for administrative costs and the remainder will be paid to the lessor(s). Since you own water rights 2-7279B, 57-7022, 2-7059 and 2-7275 you are obligated to only pay the administrative fee associated with those rights. The total payment due is **\$1,015.75 in 2014-2017 and \$1,195.00 in 2018** which includes the full administrative fee and the fee due to the lessor of 2-7062.

If you have any questions, please contact me at (208) 287-4944.

Looks good to me, using Bybee Canal avoids ditch loss issues for Grand View Mutual Canal.

(Won't affect WSB but BLM protested pending transfers for Kim Astle (2-4027) & Order of Tranquility c/o Beus (2-2271) to use Bybee instead of GVM – said no r-o-w to use canal where federal land involved, unexpected glitch but probably can be worked out eventually. BLM must have missed Draper etc. transfer appls for same thing since did not protest those. That area sure is “water right busy” this year!)

MEMORANDUM

To: Water Right(s) 02-7059, 2-7062, 02-7279B, 02-7275, and 57-7022

From: Cherie Palmer

Date: June 9, 2014

Re: Review & Analysis of Application to Rent Water from the State Water Supply Bank

PURPOSE/NARRATIVE: On March 21, 2014, the Department received a lease/rental package for water rights 2-7279B, 57-7022, 2-7059, and 2-7275 from Layne Astle. This rental came about through an NOV agreement with Terry Fields.

Layne Astle is the neighbor of Terry Fields and has a lease to farm land at the proposed place of use owned by Mr. Fields. Essentially, water right 2-7062 is at that place of use but is fully leased into the bank. All but 19.9 acres of water right 2-7062 is rented by two third parties thru 2016.

To resolve the situation Mr. Astle will rent his own water right so he can continue irrigating Mr. Fields' land. Note that he was short by 8.4 acres so I am using water right 2-7062 to make up his total request of 45 acres.

AUTHORITY TO FILE: The applicant has included his lease agreement with Mr. Fields and a letter from the Bybee lateral water users authorizing him to use the point of diversion and place of use through this rental.

WATER RIGHT VALIDITY: Water rights owned by the applicant, 2-7059, 2-7279B, 2-7275, and 57-7022 are all valid and are leased into the bank 2014-2018. Water right 57-7022 must be rented as it is overlapped with water right 2-7279B but, overlapping conditions will be included on the rental.

Water right 2-7062, owned by Mr. Fields, was not in compliance with the lease agreement for the last two years. The applicant paid an NOV fee and now has corrected the situation thru this rental. That water right is otherwise in compliance with the lease.

INJURY TO OTHER WATER RIGHTS: No injury is apparent. The water will be moving to land directly adjacent to the original POU.

ENLARGEMENT OF USE: No enlargement is evident through the rental.

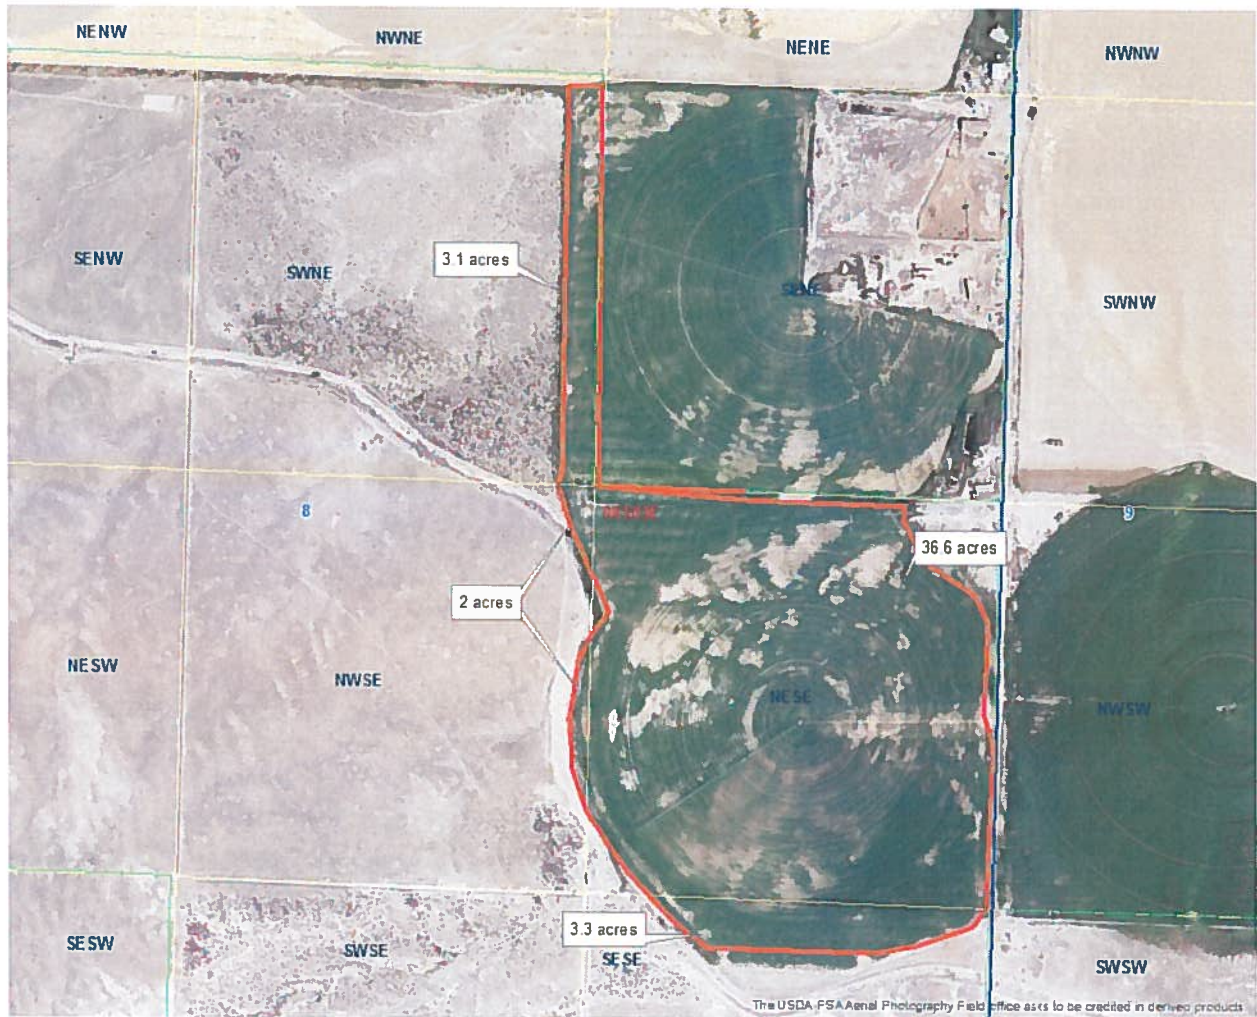

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented rights are subject to water district 02. Corbin Knowles, watermaster will be contacted for comment. Also Steve Lester of western region will be contacted for comment.

Mr. Astle,

Thank you very much for your patience during this process. I am working on finalizing your lease/rental package and had a quick question. Please take a look at the attached map. You will see that the 45 acres for your rental encompasses additional quarter-quarters than what was indicated on your application. I intend to approve your rental per the attached map but, I wanted to make sure you authorize this change on your application.

Your application indicated that you would like 5 acres in SWNE and 40 acres in the NESE. After careful consideration I recommend that there be 3.1 acres in the SWNE, 2 acres in the NWSE, 3.3 acres in the SESE, and 36.6 acres in the NESE. The total rented is still 45 acres.

Let me know as soon as you get a chance. Have a great weekend.

Layne,

Thank you for your call today. I have enclosed a map where I calculated some acres that can be moved for your lease/rental. I calculated 36.6 acres that are dried and can be leased/rented. I outlined the area you need for the rental in black. I calculated 45 acres because the overspray. I can see a few acres here and there due to overspray but this "tail" equates to nearly 5 acres so those acres need to be covered by the rental or need to be dried up somehow.

If you intend to dry up those 5 acres you are extremely close to the 40.5 acre rental with your water rights, just 3.9 acres shy. I believe that there will be 3.9 acres for you to use for your rental from a different water right, I just need you to submit the applications right away.

Please let me know if you have any questions.
