MEMORANDUM

To: Water Right No(s). 45-7335, 45-7355 and 45-13549
From: Jean Hersley
Date: May 29, 2014
Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received these applications on April 3, 2014. A transfer completed in 2006 added stockwater and commercial use to these water rights and was to include 2 milking barns, but only one barn was built. The applicant continued irrigation on the lands where the second facility was to be built assuming they could use their commercial and stockwater to irrigate. The water master suggested they bank the unused portions of the stockwater and commercial then rent it back for their irrigation.

AUTHORITY TO FILE: The applications were signed by Michael Bosma, partner.

WATER RIGHT VALIDITY: The water rights were decreed in 2006 and have continued to be used.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 140. See attached email for water master comments.

RE: APPLICATION(S) TO RENT WATER FROM THE WATER SUPPLY BANK

Dear Applicant:

The Idaho Department of Water Resources (Department) acknowledges receipt of your application(s) to rent water for from the Water Supply Bank (Bank). The Department will review your application(s) as time allows. If your application cannot be processed for the initial year specified on the application, it is possible that it may be approved for subsequent years.

Filing a rental application does not authorize diversion and use of water. It is unlawful to use water without a valid water right or an approved Water Supply Bank rental agreement. **You are not authorized to divert any water for the purposes described in your application until you have paid the rental fee and you and the Department have both signed and executed a rental agreement.**

You can check the status of your rental application by reviewing the Department's processing spreadsheet, accessible from the Water Supply Bank's website at:

Hi Jean,

The well in 12S 21E 23 SESESW is a backup to the dairy and is also an irrigation well. Any of the water that goes to the dairy from this well is diverted through the same flowmeter as the main dairy well (WMIS #1000464). The irrigation data is collected in WMIS #900152. Does that clear it up at all?

Subject: RE: Water Supply Bank Lease Applications for Big Sky Dairy

Hi Jean,

This water bank application is in response to a potential curtailment. As watermaster we suggested they complete this application and helped them through the process. The original water right transfer application for the dairy was to include two milking barns, but only one barn was built. Big Sky has continued irrigation on the lands where the second facility was to be built assuming they could use their commercial and stock water to irrigate. So technically they have been using their commercial and stock right for the incorrect use. We can send you diversion volumes from the irrigation wells and usage from the commercial facility if that is what you need. The usage data is in the WMIS Database.

Before this process started rolling I contacted Shelly Keen there in your office to run the scenario through him and make sure they knew it was coming, but the application submission was delayed.

Let me know what we can do to help this get through. It will be a temporary solution until they build their second facility as they said they were planning in the near future.

Thanks,

Subject: Water Supply Bank Lease Applications for Big Sky Dairy

Brian,

The Department received applications from Big Sky Dairy to lease part of the commercial and stockwater uses to the Bank. I've been looking for watermaster usage reports for the past 6 years but I can't locate them in the state office. We need to have evidence that the full potential of the stockwater and commercials uses have been met in the last 6 years.

The water right numbers are 45-7335, 45-7355 and 45-13549. If these rights are accepted into the Bank, Big Sky Dairy wants to rent out the water for irrigation for 182.5 acres, 3.35 cfs, 734.8 af in T12S, R21E, Section 24 in portions of the SW and SE qq.

If you have any records that might help, could you please send them to me? If you have any other comments or concerns, I would appreciate those too. Thank you.
