Re: Protested Application For Permit #95-7570, Holden & Linda Mitchell

Dear Mr. and Mrs. Mitchell:

Enclosed is a draft permit, for the above said application that contains conditions that should satisfy the protest of your application by the Department of Fish & Game. Condition #7 is the one of most concern and is one that will be part of all future permits due to the minimum stream flow on the Coeur d'Alene River. Also, the start for the period of use was changed from April 1st to April 15th, the ending period of October 31st did not change.

A copy of the draft permit has been sent to the Department of Fish & Game and is waiting for their concurrence. In the mean time, please review the draft permit and if it meets with your satisfaction to satisfy the protest, please send me a letter of e-mail (keith.franklin@idwr.idaho.gov) stating you agree with the draft permit as written.

If you have any questions, feel free to contact me at this office.

Thank you.

Sincerely,

Keith E Franklin
Program Manager Northern Region
