APPLICANT

10. Remarks:

Application proposes to use an existing low temperature geothermal well for heating of one home, three apartments, and an addition to a shop. The water is used for the heat value only and the water is returned to the source well. This should be considered non-consumptive. This permit is connected to the same system as water right 43-7308, this permit will result in an increase in the volume of water used from the well but not an increase in the flow rate.

11. Map of proposed point of diversion and place of use attached? [x]

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

To: Application for Permit 43-13723 (Peter Grush) File
From: Nathan Erickson
Re: Memo

Application for Permit 43-13723, filed in the name of Peter J and Sylvia T Grush, seeks to appropriate 0.37 cfs of ground water for heating from an existing low temperature geothermal well. The permit would authorize the use of ground water for a heating system that would return the water to the aquifer through an injection well. The applicant proposes to use an existing low temperature geothermal well for both the production and injection well. The water will be used to heat Water right 43-7308 is currently used from the same well for heating and commercial uses. The proposed place of use and point of diversion are located approximately 5 miles south of the City of Malta.
