terms and conditions not reasonably acceptable to the Buyer, the Buyer may terminate this Agreement by providing written notice of such termination to the Seller. In the event the Buyer terminates this Agreement pursuant to this Section, this Agreement shall be of no further force or effect.

3.2. Adjustment to Purchase Price. The Buyer and the Seller acknowledge and agree that the Purchase Price was calculated based on the Buyer receiving after the Transfer at least 221.3 AFA available under the Water Right for the Buyer's use in its operations. In the event the amount of water under the Water Right available for the Buyer's use after the Transfer is less than 221.3 AFA, the Purchase Price will be reduced on a pro-rata basis (with the reduced Purchase Price reflecting the percentage of AFA available for the Buyer's use after the Transfer as compared to the 221.3 AFA anticipated to be available for the Buyer's use). Any reduction in the Purchase Price pursuant to this Section shall be reflected in a reduction of the original principal amount of the Note.

3.3. Title Commitment. Within seven (7) days following the mutual execution hereof, the Seller shall provide to the Buyer a commitment of title insurance showing the condition of the title to the real property to which the Water Right is appurtenant (the "Commitment"). The Buyer shall have ten (10) business days following the receipt thereof to provide the Seller with a written objection to any condition disclosed on the Commitment that would encumber the Water Right. If the Buyer does not object within such allotted time, the Buyer shall be deemed to have accepted the conditions of the title. The parties agree that if the title to the Water Right is encumbered and cannot be released from such encumbrance within ten (10) business days after the Seller receives the Buyer's written objection, the Buyer may terminate this Agreement by providing written notice of such termination to the Seller.

3.4. Closing Items. The obligations of each of the Buyer and the Seller to close hereunder is contingent upon the full payment, execution and delivery (as applicable) of the items set forth in Section 2.2 in accordance with the terms hereof.

4. Covenants.

4.1. The Seller's Obligations. The Seller covenants and agrees as follows:

(a) To cooperate with the Buyer in obtaining approval of the Transfer, including producing, executing, and submitting any documentation required to complete the Transfer, including (without limitation) executing any documentation required by IDWR to process or approve the Transfer, reasonably cooperating with the Buyer in satisfying conditions for approval of the Transfer, and reasonably cooperating in any appeal of a denial of the Transfer or approval of the Transfer on terms and conditions not reasonably acceptable to the Buyer.

(b) To perform its obligations under Section 2.2.

(c) To cease using the Water Right on or before the Closing Date;

(d) To be responsible for satisfying any dry-up obligation imposed by IDWR as a result of the Transfer.

4.2. The Buyer's Obligations. The Buyer covenants and agrees as follows:

(a) To file an Application for Transfer of Water Right with IDWR and take other commercially reasonable steps to effectuate the Transfer in a reasonable time.

(b) In the event IDWR issues a preliminary order approving the Transfer on terms and conditions not reasonably acceptable to the Buyer, the Buyer shall take commercially reasonable steps to withdraw its application for the Transfer before such preliminary order becomes a final order.

4.3. Additional Documents. The parties agree to reasonably cooperate and to execute such additional documents as may be reasonably necessary to give effect to this Agreement and the transactions contemplated hereby.

The provisions of this Section 4 shall expressly survive Closing.

5. Representations and Warranties.

(b) No Conflicts. To the knowledge of the Seller, neither the execution, delivery nor performance of this Agreement by the Seller nor the consummation of the transactions contemplated hereby will result in any material conflict with, breach of, or default under any material contract, agreement or instrument to which the Seller is a party.

(c) Brokers and Finders. The Seller has not engaged any broker, agent or finder in connection with the transactions contemplated by this Agreement. The Seller shall be solely responsible for all fees and commissions owing to any consultant working with the Seller in connection with this transaction.

5.2. Representations of the Buyer. The Buyer represents and warrants as follows as of the date hereof, which representations and warranties shall also be true and correct as of the Closing Date:

(a) Authorization. The Buyer is duly organized and in good standing in the State of Idaho, and has all necessary power and authority to enter into and perform this Agreement and to consummate the transactions contemplated hereby.

(b) No Conflicts. To the knowledge of the Buyer, neither the execution, delivery nor performance of this Agreement by the Buyer nor the consummation of the

transactions contemplated hereby will result in any material conflict with, breach of, or default under any material contract, agreement or instrument to which the Buyer is a party.

(c) Brokers and Finders. The Buyer has not engaged any broker, agent or finder in connection with the transactions contemplated by this Agreement. The Buyer shall be solely responsible for all fees and commissions owing to any consultant working with the Buyer in connection with this transaction.

6. Miscellaneous.

6.1. Risk of Loss. The risk of loss to the Water Right prior to the Closing (including without limitation any loss, forfeiture, impairment or damage to the Water Right by reason of the Transfer) shall be with the Seller.

MEMORANDUM

Date: June 9, 2014
To: Transfer 79357 File
From: Corey Skinner
Re: Evaluation of Sufficiency of Information Submitted

Application proposes transferring a 16.3 acre (0.19 cfs & 30.5 afa) portion of a groundwater irrigation right, 47-17589, from a farm located approximately 14.5 miles south and 1.0 mile west of Rogerson to stock water and commercial uses associated with an existing dairy facility located approximately 4.3 to 4.75 miles south and 1.0 to 1.25 miles west of the Highway 30 and Highway 93 intersection. Two existing wells at the dairy facility will be used to divert the transferred water. Note that two additional companion transfers have also been filed on right 47-17589. Also note that the place of use of groundwater right 47-17589 involved with this transfer overlaps the place of use of two Mule Creek irrigation rights, 47-7287 and 47-14285. Rights 47-17589, 47-7287, and 47-14285, currently in the name of Thomas or Dorothy Leno, resulted from previous similar approved transfers # 77406 (approved 11/1/2011), # 77669 (approved 3/13/2012), and # 78127 (approved 12/6/2012). This transfer (# 79357) application includes a detailed supplemental analysis of the past use of right 47-17589 (identified as original right 47-7106) copied from the previously approved transfers (supporting information in the original transfer file). This analysis indicates that for each acre of right 47-17589 that is transferred, 1.87 AFA of consumptive use would be available to be transferred. The application also includes relinquishment forms signed by Thomas Leno (note that Dorothy has passed away) relinquishing the 16.3 acre portion of rights 47-7287 and 47-14285 that overlaps with the 16.3 acres of 47-17589 involved with this transfer. However, note that as part of the processing of this transfer, it is proposed to retain the full amount (actually a rather small amount) of irrigation storage volume and irrigation from storage volume authorized by right 47-7287. Note that in the previously approved transfers involving these same rights, for right 47-7287 only acres were relinquished and the irrigation storage and irrigation from storage volume was retained.

- **Authority to File:**

The application is filed in the name of Thomas and Dorothy Leno, the current recorded owners of the rights involved with the transfer. Note that a copy of a death certificate has been included with the application indicating that Dorothy has passed away. If the application is approved, it is proposed to update the records involved with the application by removing Dorothy as an owner. The application includes a copy of a water right purchase and sale agreement between Thomas Leno and Cedar Ridge Dairy LLC who is the entity who is operating the dairy facility at the proposed place of use. According to a deed included with the application, the actual dairy facility is owned by Blue Sage Properties LLC (Antoinette Hafliger). A copy of a statement signed by Blue Sage Properties LLC (Antoinette Hafliger) has been included with the application authorizing the transfer of the right to the property and acknowledging that the right will be retained by Thomas and Dorothy Leno. Note that the water right purchase and sale agreement between Thomas Leno and Cedar Ridge Dairy LLC indicates that ownership of the right will be conveyed to Cedar Ridge Dairy after the transfer is approved.

- **Water Right Validity:**

All the rights involved with the transfer were decreed in the SRBA in 2010 or 2011. Also note that the rights involved in the transfer resulted from previous similar approved transfers # 77406 (approved 11/1/2011), # 77669 (approved 3/13/2012), and # 78127 (approved 12/6/2012).

- **Injury to Other Water Rights:**

The current point of diversion for right 47-17589 and the proposed points of diversion at the dairy facility are located approximately 33 miles away from each other. However, both locations are located within IDWR administrative basin 47. In addition, previous applications involving portions of the Leno groundwater right included copies of published reports relating to studies of the groundwater within the Salmon Falls Creek Basin in an attempt to show the interconnection of the aquifer between the current point of diversion for right 47-17589 and properties in the general vicinity of the proposed points of diversion. In addition, IDWR has approved transfer # 77406 (approved 11/1/2011) moving the Leno groundwater right to the Buhl area (further than the move proposed by this transfer).

- **Enlargement of Use:**

None anticipated. Conversion from irrigation to stock water and commercial use (based on consumptive use of irrigation right) will result in a net decrease in the allowable annual diversion volume.

- **Local Public Interest:**

No issues anticipated. The application will be subject to public notice and protest.

- **Beneficial Use/Conservation of Water Resources:**

Proposed uses are recognized as beneficial uses of water.

- **Effect on Economy of the Local Area:**

None anticipated.

- **Effect of the Agricultural Base of the Local Area:**

None anticipated.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.

Subject: Leno Transfers

Greg,

As we discussed, the package of three Leno transfers have been received and receipted. You indicated that you would like to process all three applications at the same time. Currently, we still need an authorization from L & S Land holdings for the transfer for dairy # 3 and the irrigation transfer. We also need clarification that the irrigation transfer is indeed for 41.6 acres at 3 acre-feet per acre at the new place of use (your cover letter indicates 31.2 acres at 4.0 acre-feet per acre). In addition, we will need an additional transfer, filed by the owner(s) of dairy # 3, to add the new well as a point of diversion to the existing right(s) at the dairy.

As we discussed, the transfers will be held, until the above mentioned items are addressed. If the items are not submitted in a timely manner, IDWR will write you a "30 day letter" giving you 30 days to submit the information before the dairy # 3 transfer, and the irrigation transfer are returned and a partial refund of the filing fees is initiated (the transfer for dairy # 2 can be processed independently of the returned applications).

If you have any questions let me know,

Corey

Re: Thomas Leno/Cedar Ridge Dairy Transfer

Dear Mr. Skinner:

Cedar Ridge Dairy is purchasing three portions of water right 47-17589 which is currently owned by Thomas and Dorothy Leno. Three transfers are being submitted to IDWR at this time. The application for all three transfers is Thomas and Dorothy Leno. The ownership of the three proposed portions will be changed after the transfers are approved by IDWR. Dorothy Leno has passed away and therefore Tom Leno has signed all three transfer applications and legal documents. A copy of Dorothy Leno's death certificate will be provided to IDWR.

Water right 47-17589 is a child water right from 47-7106 that was originally worth 155.0 acres of irrigation ground water. Three previous transfers have transferred off a total of 52.5 acres of primary ground water. There are currently 102.5 acres of irrigation ground water available under water right 47-17589. It has been determined through historical records that there are 93.2 acres of 47-17589 that are considered primary ground water acres and 9.3 acres of 47-17589 that are supplemental to Mule Creek surface water rights. It is proposed to transfer off the primary 93.2 acres of ground water rights with the three transfers being submitted at this time. The remaining 9.3 acres of 47-17589 must remain stacked with the water rights from Mule Creek.

The 93.2 acres of 47-17589 are currently stacked with portions of Mule Creek water rights 47-2118, 47-2048, 47-14285 and 47-7287. Relinquishment documents for the stacked portions of 47-2118, 47-2048, 47-14285 and 47-7287 have been signed by Thomas Leno. Similar documents like these have been accepted by IDWR and helped aide the processing of the previous three transfers from 47-7106.

The first transfer is an irrigation to stock and commercial water transfer for Dairy #2 and will provide an additional 30.5 acre feet annually (AFA) to the dairy facility. Dairy #2 is owned by Blue Sage Properties. A contract of agreement between Blue Sage Properties and Thomas Leno has been signed

by both parties that allows Thomas Leno to transfer a portion of his water rights to Dairy #2. Based on historical records, the consumptive use of 47-17589 is 1.87 AFA per acre. A total of 16.3 acres of 47-17589 will be dried up and no longer irrigated to facilitate this transfer.

The second transfer is an irrigation to stock and commercial water transfer for Dairy #3 and will provide an additional 66.0 AFA of water to the dairy facility. Dairy #3 is owned by Henry Calvin Hafliger Jr. A contract of agreement between Henry Calvin Hafliger Jr. and Thomas Leno has been signed by both parties and allows Thomas Leno to transfer a portion of his water right to Dairy #3. Based on historical records, the consumptive use of 47-17589 is 1.87 AFA per acre. A total of 35.3 acres of 47-17589 will be dried up and no longer irrigated. A new well is proposed to be drilled with this transfer for Dairy #3. The location of the new well or POD is Township 16 East Range 11 South Section 6 NWNE.

The third transfer is an irrigation to irrigation transfer. A total of 31.2 acres will be transferred to property owned by Henry Calvin Hafliger Jr. A new well is proposed to be drilled in Township 16 East Range 11 South Section 8 SWSW. The proposed well will pump water into an existing pond that collects water from the Salmon River Canal Co. and applies the water to near by fields. The 31.2 acres will remain primary ground water and will not be stacked with Salmon River Canal Co. water. There will be 41.6 acres of 47-17589 at 3.0 af/acre dried up to facilitate the 31.2 acre of the transferred water at 4.0 af/acre. A contract of agreement between Henry Calvin Hafliger Jr. and Thomas Leno has been signed by both parties and allows Thomas Leno to transfer a portion of his water right for irrigation purposes to property owned by Henry Calvin Hafliger Jr.
