

MEMORANDUM

DATE: June 20, 2014

TO: Water Right File 37-22672

FROM: Shelley W. Keen 

RE: Phone call from the permit holder Bill Ratliffe

Bill Ratliffe called today to inquire about complying with the conditions of his permit that require a straight length of pipe and a lockable device. He explained that since the permit was issued, Water District 37 required him to install a measuring device. A valve that can be closed and padlocked shut is located on the mainline near the measuring device. I told Mr. Ratliffe that he could demonstrate compliance with the permit conditions by sending IDWR a photo of the measuring device and valve.
