5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future
Diversion works has headgate and measuring device. Water is conveyed in open ditch to field. POU is flood irrigated.
- b. Who owns the property at the point(s) of diversion
State of Idaho
If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
Historical ditch used as a conveyance for many years.
- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
No, ☒ If Yes, ☐
Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien:
It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on this application may result in rejection of the application or cancellation of an approval.
- d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:
There is no effect on the land. This is a junior water right that is usually diverted for a month or six weeks. When high water is over Big Timber Cr drops rapidly and the right is curtailed.
- e. Describe the use of any other water right(s) for the same purpose or land, or same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:
Part of this POU is also served by 74-38 from Little Timber Cr.

PART 3

☒ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.

☒ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation.
Label it **Attachment #8b**

1. Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above.:
