Subject: Amended Application for transfer 78872

Hi Paul,

Attached is an amended transfer application that is ready for signature. The amended application includes the two water rights that the city obtained from Idaho Water Company. Please sign the application and return to me.

Thanks,
Blake

Department of Water Resources
Eastern Region

Blake,

I have not meant to appear non-communicative. My apologies for that. I just spoke to the mayor and the city should shortly be sending you the check for \$1,110.

Consolidation of well app fee -

+ 50⁰⁰ app. fee for the Delta Koltz purchase

Sincerely,

2 checks

Subject: FW: City of Blackfoot application for transfer

Mr. Virtue,

On September 11th 2013 we received a transfer application for the City of Blackfoot proposing to add points of diversion to the City's municipal water rights. This transfer also proposed to include well # 13 as an authorized diversion point. Paul Scoresby of Schiess & Associates filed the transfer application on behalf of the City of Blackfoot and over the past several months I have tried to contact him by email about the filing fee submitted with the application but have not received a response from him. The transfer application appears to be completed to where it can be processed, however the filing fee that we received is not enough to process a transfer application of 20.34 cfs. The filing fee for 20.34 cfs is \$2060.00. The filing fee that we received for this transfer was \$950.00 (short \$1110.00). As I discuss in the string of emails that I sent to Mr. Scoresby, based on the filing fee that we received I am not quite sure if the City of Blackfoot is trying to limit the wells to a specific rate of diversion? Once this small issue is resolved we can continue to process this transfer application.

Please let me know as soon what you would like to do about this application.
