Transfer No. 78872

MINIMUM REQUIREMENTS CHECKLIST

TO BE SUBMITTED WITH APPLICATION FOR TRANSFER

An application for transfer must be prepared in accordance with the minimum requirements listed below to be acceptable for processing by the Department. Incomplete applications will be returned. The instructions, fee schedule, Part 2A reports and additional Part 2B forms are available from any Department office or on the Department's website at <http://www.idwr.idaho.gov/>.

Name of Applicant(s) CITY OF BLACKFOOT

Check whether each item below is *attached* (Yes) or *not applicable* (N/A) for the proposed transfer.Yes N/A *Means the item is always required and must be included with the application.

- ☐ * Completed Application for Transfer of Water Right form, Part 1.
- ☐ * Signature of applicant(s) or applicant's authorized representative on Application for Transfer Part 1. Include evidence of authority labeled Attachment #3 (see below) if signed by representative.
- ☐ * Application for Transfer Part 2A. Attach a Part 2A report describing each water right in the transfer as currently recorded.
- ☐ ☐ Complete and attach an Application for Transfer Part 2B for each water right for which only a portion is proposed to be changed through this transfer application
- ☐ * Application for Transfer Part 3A is always required (see Attachment #7a below); Parts 3B and 3C must be completed for transfer applications proposing to change the nature of use of the water right(s) or proposing changes to supplemental right(s).
- ☐ * Correct fee submitted with transfer application form. (Fee schedule is on website and instructions for application for transfer.)

Attachments to Application - Label each attachment with the corresponding number shown below as Attachment #1-9.

- ☐ ☐ #1 If the applicant is a business, partnership, organization, or association, and not currently registered in the State of Idaho as a business entity, attach documentation identifying officers authorized to sign or act on behalf of right holder. (See Part 1.)
- ☐ ☐ #2a Water Right ownership documentation if Dept. records do not show the transfer applicant as the current water right owner.
- ☐ ☐ #2b If the ownership of the water right will change as a result of the proposed transfer to a new place of use, attach documentation showing land and water right ownership at the new place of use. Include documentation for all affected land and owner(s).
- ☐ ☐ #3 Documentation of authority to make the change if the applicant is not the water right owner.
- ☐ ☐ #4 Power of Attorney or documentation providing authority to sign or act on the applicant's behalf. (See Part 1.)
- ☐ ☐ #5 If the transfer application proposes to change the point of diversion for a water right affecting the Eastern Snake Plain Aquifer (ESPA), attach the results of an ESPA analysis and a detailed mitigation plan to offset any depletions to hydraulically connected reaches of the Snake River. ESPA transfer spreadsheet and model grid labeled cells are available on the Department's website at <http://www.idwr.idaho.gov/WaterManagement/WaterRights/WaterRightTransfers/resources.htm>.
- ☐ ☐ #6 Notarized statement of agreement or a statement on official letterhead signed by an authorized representative from each lien holder or other entity with financial interest in the water right(s) or land affected by the proposed transfer. (See Part 1.5.c.)
- ☐ * #7a Attach a map identifying the proposed point(s) of diversion, place(s) of use, and water diversion and distribution system details as described on the application. Include legal description labels. If only a portion of the right is proposed to be changed, identify the current location of the part of the existing right(s) proposed to be changed. (See Part 3A.)
- ☐ ☐ #7b If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use.
- ☐ ☐ #8a If the transfer application proposes to change the nature of use or period of use for one or more rights, provide documentation describing the extent of historic beneficial use for the water rights proposed to be transferred and document how enlargement will be avoided. (See Part 3B.)
- ☐ ☐ #8b If the transfer application proposes to change the place of use of a supplemental irrigation right, provide documentation regarding the historic use of the supplemental right(s) and availability or reliability of the primary right(s) being supplemented, both before and after the proposed change. (See Part 3C.)
- ☐ ☐ #9 Other. Please describe: _____

Attach additional pages if necessary and label it **Part 1A.2**

Well 12 ended up being completed with two wells instead of one on well lot at NESESE, Sec 35, T02S, R35E.

We simply request that the second diversion point on well lot be added to the licenses to identify the second well. We have called the second well 12. This transfer will also cross list the City of Blackfoot's water rights to all their ground water wells.

B. DESCRIPTION OF RIGHTS AFTER THE REQUESTED CHANGES. IF THE RIGHTS ARE BEING SPLIT TO A SEPARATE SYSTEM, DESCRIBE PORTIONS TO BE CHANGED TO A SEPARATE SYSTEM AS THEY WOULD APPEAR AFTER THE REQUESTED CHANGES.

1. Detailed Water Right Description(s) Attached labeled Part 1.

**APPLICATION FOR TRANSFER OF WATER RIGHT
PART 1 Continued**

5. General Information:

a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future
All Municipal system wells have flow meters, each well is protected for security purposes with lockable
door on pump stations. Each well should be able to be accessed by Water District 120 staff for measurement
purposes.

b. Who owns the property at the point(s) of diversion

City of Blackfoot

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
No, ☒ If Yes, ☐

Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed
changes on official letterhead signed by an authorized representative. Label it Attachment #6. List the name of the entity and
type of lien:

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes
that may impact or change the value of the water rights or affected real property. Any misrepresentation of legal encumbrance on
this application may result in rejection of the application or cancellation of an approval.

d. Describe the effect on the land now irrigated if the place or purpose of use is changed pursuant to this transfer:

N/A

e. Describe the use of any other water right(s) for the same purpose or land, or same diversion system as right(s) proposed to be transferred at both the existing and proposed point(s) of diversion and place(s) use:

NA

f. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

☐ Yes

☒ No

☐

☒

undergone a period of five or more consecutive years of non-use,

☐

☒

currently leased to the Water Supply Bank,

☐

☒

currently used in a mitigation plan limiting the use of water under the right, or

☐

☒

currently enrolled in a Federal set-aside program limiting the use of water under the rights?

If yes, describe:

Conditions/Remarks:

1. Place of use is within the service area of the City of Blackfoot municipal water supply system as provided for under Idaho Law.
2. A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
3. Prior to the diversion and use of water under Transfer approval 72537, the right holder shall install and maintain acceptable measuring devices, including data loggers, at the authorized points of diversion, in accordance with Department specifications.
4. This right does not grant any right-of-way or easement across the land of another.

**IDAHO DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT**

Conditions/Remarks:

5. The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
6. Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
7. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
8. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
9. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
10. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
11. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
12. The diversion and use of water described in Transfer 72537 may be subject to additional limitations agreed to by the protestant and the right holder under Instrument #586847 entitled Water Use Agreement recorded in Bingham County on 10/10/2007 to which the Department is not a party and which may be enforceable by a court of law.

Right Acre Limit: 26.5
POU Total Acres: 3,464.5

Conditions/Remarks:

1. This right is limited to the irrigation of 26.5 acres within the place of use described above in a single irrigation season.
2. Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
3. A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.

**IDAHO DEPARTMENT OF WATER RESOURCES
APPLICATION FOR TRANSFER OF WATER RIGHT**

Conditions/Remarks:

4. Prior to the diversion and use of water under Transfer approval 74555, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
5. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
6. The right holder shall submit a report annually to the department demonstrating that the water diverted under rights 27-12140 is necessary to satisfy demands for irrigation use during the authorized period of use. The annual report shall include the maximum weekly volume diverted for all purposes during both the irrigation season and the non-irrigation season. The annual report shall also include the total volume diverted for all purposes during both the irrigation season and the non-irrigation season. After specific notification by the department, the right holder shall provide to the department any data used to compile the report.
7. Every 5 years, or more or less frequently if deemed necessary by the department, the right holder shall submit an analysis of the number of acres irrigated within the authorized place of use that are not already covered by other irrigation or surface water rights, which will include an aerial photo clearly designating all lands being irrigated.
8. Any diversions of water under this right shall not be allowed if irrigation within the authorized place of use is curtailed or ceases for any reason.
9. Diversion of water under this right from the point of diversion located T02S R35E Sec. 30 SWSW known as well 11 shall be limited to a total volume of 45 af in a single irrigation season.
10. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
11. The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
12. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
14. This right does not grant any right-of-way or easement across the land of another.
15. Place of use is within the service area of the City of Blackfoot municipal water supply system as provided for under Idaho Law.

APPLICATION FOR TRANSFER OF WATER RIGHT**

Conditions/Remarks:

9. Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
10. Beginning on the date of approval of Transfer 79218, the irrigation uses under rights 27-12265 and 27-12266 when combined are limited to the following schedule of allowed use.

Year 2014 the rights are limited to 0.29 cfs, 88.0 afa and 22.0 acres.

Year 2015 and beyond the rights are limited to 0.33 cfs, 100.0 afa and 25.0 acres.

11. The irrigation component of municipal use under this right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate.
12. The combination of changes under Transfer approvals:

79213 as described under rights 25-14405 and 25-14406

79215 as described under rights 29-14106 and 29-14107

79217 as described under rights 35-14381 and 35-14382

79218 as described under rights 27-12265 and 27-12266

provide the necessary mitigation for any increased depletion to connected reaches of the Snake River that would result from each individual transfer. These transfer approvals shall not require mutual dependence for ongoing mitigation.

Any future action, including a subsequent transfer of this right or an order rescinding a transfer approval, which would result in a change to the point(s) of diversion under this right may require mitigation for the effects of the change. Such future action to change the point(s) of diversion under this right shall be analyzed for effects to connected reaches of the Snake River based on the priority date, point(s) of diversion and steady-state quantity as authorized for this right under Transfer approval 79218.

13. The approval of this transfer redefines all of the elements of this water right, and the new use of water authorized by this approval shall constitute the full extent of the right.
14. This right does not grant any right-of-way or easement across the land of another.
15. The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
16. Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
17. Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.

APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

☐ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**. If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (GIS) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**

APPLICATION FOR TRANSFER OF WATER RIGHT PART 1 Continued

5. General Information:

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

All municipal system wells have flow meters, each well is protected for security purposes with lockable door on pump stations. Each well should be able to be accessed by Water District 120 staff for measurement purposes.

- b. Who owns the property at the point(s) of diversion? City of Blackfoot

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:
NA

- c. Are the lands from which you propose to transfer the water right subject to any liens, deeds of trust, mortgages, or contracts?
If yes, ☐ Attach a notarized statement from the holder of the lien, deed of trust, mortgage or contract agreeing to the proposed changes on official letterhead signed by an authorized representative. Label it **Attachment #6**. List the name of the entity and type of lien: NA

It is the applicant's responsibility to provide notice to lien holder, trustee, mortgagor, or contract holder of the proposed changes that may impact or change the value of the water rights or affected real property. APPLICATION FOR TRANSFER OF WATER RIGHT PART 3

A. PLAT MAP (See Part 3A of Instructions for application for transfer for complete requirements.)

- ☐ Attach a map of the diversion, measurement, control, and distribution system. Label it **Attachment #7a**.
- ☐ If the transfer application proposes to change the place or purpose of use of an irrigation right attach a Geographic Information System (**GIS**) shape file, or an aerial photo or other image clearly delineating the location and extent of existing acres and changes to the place of use. Label it **Attachment #7b**. If the place of use currently consists of a permissible place of use, then the attachment is not required if the application contains a clear statement that the boundaries for the place of use are not proposed to be changed by the transfer and the total number of irrigated acres within the place of use before and after the transfer is clearly stated.

B. CHANGES IN NATURE OF USE (Water Balance)

- ☐ If you propose to change the nature of use or period of use of all or part of the right(s) listed in this application, attach documentation describing the extent of historic beneficial use of the portion of the right(s) proposed to be changed. Also attach documentation showing that the portion of the right(s) to be changed will not be enlarged in rate, volume, or consumptive use through the proposed change. Label it **Attachment #8a**.

C. PLACE OF USE CHANGES TO SUPPLEMENTAL IRRIGATION RIGHTS

- ☐ If you propose to change the place of use of a supplemental irrigation right, answer below and attach supporting documentation. Label it **Attachment #8b**.

Describe how the supplemental water rights have been used historically in conjunction with other water rights at the existing place of use. Describe the time during the irrigation season that the supplemental rights have been used. Include information about the availability or reliability of the primary right(s) being supplemented, both before and after the change. If the applicant is proposing to change a supplemental irrigation right to a primary right, provide the information required on Part 3B above:

Conditions of Approval:

1. 124 Place of use is within the service area of the City of Blackfoot municipal water supply system as provided for under Idaho Law.
2. 180 A map depicting the place of use boundary for this water right at the time of this approval is attached to this document for illustration purposes.
3. 115 Prior to the diversion and use of water under Transfer approval 72537, the right holder shall install and maintain acceptable measuring devices, including data loggers, at the authorized points of diversion, in accordance with Department specifications.
4. 004 This right does not grant any right-of-way or easement across the land of another.
The right holder shall not provide water diverted under this right for the irrigation of land having appurtenant surface water rights as a primary source of irrigation water except when the surface water rights are not available for use. This condition applies to all land with appurtenant surface water rights, including land converted from irrigated agricultural use to other land uses but still requiring water to irrigate lawns and landscaping.
5. 102 Right holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.
6. 046 The right holder shall accomplish the change authorized by this transfer within one year of the date of this approval.
7. T07 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
8. T08 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
9. T19 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
10. R05 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
11. R02 The diversion and use of water described in Transfer 72537 may be subject to additional limitations agreed to by the protestant and the right holder under Instrument #586847 entitled Water Use Agreement recorded in Bingham County on 10/10/2007 to which the Department is not a party and which may be enforceable by a court of law.

1. X27 This right is limited to the irrigation of 26.5 acres within the place of use described above in a single irrigation season.
2. R05 Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 120.
3. R02 A lockable device subject to the approval of the Department shall be maintained on the diverting works in a manner that will provide the watermaster suitable control of the diversion.
4. 214 Prior to the diversion and use of water under Transfer approval 74555, the right holder shall install and maintain acceptable measuring device(s) at the authorized point(s) of diversion in accordance with Department specifications, or shall obtain an approved variance from the Department to determine the amount of water diverted from power records or to maintain an existing measuring device.
5. 213 Upon specific notification of the Department, the right holder shall install and maintain data loggers to record water usage information at the authorized point(s) of diversion in accordance with Department specifications.
6. The right holder shall submit a report annually to the department demonstrating that the water diverted under rights 27-12140 is necessary to satisfy demands for irrigation use during the authorized period of use. The annual report shall include the maximum weekly volume diverted for all purposes during both the irrigation season and the non-irrigation season. The annual report shall also include the total volume diverted for all purposes during both the irrigation season and the non-irrigation season. After specific notification by the department, the right holder shall provide to the department any data used to compile the report.
7. Every 5 years, or more or less frequently if deemed necessary by the department, the right holder shall submit an analysis of the number of acres irrigated within the authorized place of use that are not already covered by other irrigation or surface water rights, which will include an aerial photo clearly designating all lands being irrigated.
8. Any diversions of water under this right shall not be allowed if irrigation within the authorized place of use is curtailed or ceases for any reason.
9. Diversion of water under this right from the point of diversion located T02S R35E Sec. 30 SWSW known as well 11 shall be limited to a total volume of 45 af in a single irrigation season.
10. R64 This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
11. T07 The right holder shall accomplish the change authorized by this transfer within one year(s) of the date of this approval.
12. T08 Failure of the right holder to comply with the conditions of this transfer is cause for the Director to rescind approval of the transfer.
13. T19 Pursuant to Section 42-1412(6), Idaho Code, this water right is subject to such general provisions necessary for the definition of the rights or for the efficient administration of water rights as may be determined by the Snake River Basin Adjudication court at a point in time no later than the entry of the final unified decree.
14. 004 This right does not grant any right-of-way or easement across the land of another.
