**Re: Amended Application for Transfer of Water Right Nos. 11-2102, 11-017A,
11-2017B, 11-2141, 11-2144 and Transfer No. 79037**

Dear James:

Last December we submitted on behalf of P4 Production, LLC, an Application for Transfer that was assigned number 79037. P4 has deemed it prudent to amend the transfer to add four additional points of diversion, identified as TW-75, TW-80, TW-83, and TW-58 on the map attached to the amended Application for Transfer enclosed herewith. There are existing wells that have been used for groundwater monitoring. P4 would like to be able to use these wells to withdraw groundwater for use in its plant. The addition of these four points of diversion is the only amendment to the Application.

As you know, protests were filed against the original Application for Transfer. We understand that amending the Application will necessitate re-publication, and that the protests filed previously will remain outstanding against the Amended Application. We are continuing to work with the Protestants to resolve their concerns, which we hope to have done in the near future.

Please publish notice of the Amended Application at your earliest convenience. As always, don't hesitate to call if you have any questions regarding the Amended Application for Transfer. I have enclosed a second copy of the cover page, and ask that you conform stamp and return that in the enclosed return envelope.

Sincerely,

T.J. BUDGE
