RE: Amendment for Licensing

Dear Mr. Hubbard:

Thank you for sharing with me a little of the history of the ground water right developed by your father. We would like to issue a water right license that reflects the development occurring under Permit 15-7083. As we discussed on the phone, because the location of the acres irrigated from the well in the late 1980s differs from the location listed on the permit, the permit has to be amended before a license can be issued. I have prepared an amendment for you to review. The amendment describes 20 irrigated acres and covers all of the irrigated ground on your property. The enclosed map shows where the 20 irrigated acres are located.

If the Application for Amendment correctly describes the changes to be made to Permit 15-7083, please sign the application (highlighted in yellow) and return it to our office. Feel free to keep a copy for your records. The filing fee for a licensing amendment is \$100. I have also included a draft of the license that will be issued. I am proposing to issue the license for the full permitted acres (20 acres) and a diversion rate of 0.26 cfs (the maximum capacity of the well assuming a 5 hp pump and a pumping water level of 15 feet).

Once we receive the signed application for amendment and the filing fee, we will move forward with issuing License 15-7083. It should take less than a week. I have also included an ownership change form for the Rose Jones Family Partnership rights. The filing fee for the ownership change is \$75 (\$25 per water right). Please include a copy of the deed conveying the land from the Jones Family to you. Feel free to call if you have any questions about the field exam report or the draft license.

Sincerely,

James Cefalo
