

MEMORANDUM

Date: May 30, 2014
To: Transfer 79270
From: Corey Skinner
Re: Amended Approval

Application originally proposed adding two new wells to rights 45-2625, 45-7021, and 45-14376. These rights are currently in a 2669.5 acre PPU along with 14 other rights. The 2669.5 acre PPU was created via transfer # 78902 approved 2/7/2014. Transfer # 79270 was protested by the BLM because 0.5 acres of the 2669.5 acre PPU was located on BLM land. The applicant and the BLM agreed to drop the 0.5 acres from the PPU. Since the other 14 rights in the PPU were not part of transfer # 79270, they have been added as associated rights to transfer # 79270 so that their PPU can be reduced by the 0.5 acre that is on BLM ground resulting in all 17 rights having a 2669.0 acre PPU (without the BLM ground) upon approval of transfer # 79270.
