Subject: Transfer Nos. 78790, 78791 (Thompson Creek Mining Co.)

RECEIVED
JUN 03 2014
DEPT. OF WATER RESOURCES
SOUTHERN REGION

Benny, Corey:

Thank you again for taking the time to discuss the above-reference transfer approvals with me. As I pointed out, Transfer No. 78790 advanced the priority date of water right 72-7257 from March 11, 1983 to March 12, 1983. You indicated that this is attributable to a glitch in IDWR's electronic database, which you have now corrected. In order to fully conclude this matter, please also issue an amended transfer approval that reflects the corrected priority date.

We also discussed that both transfer approvals added the NWNW of Sec. 6 to the place of use associated with the tailings pond, even though it has not historically been part of the place of use, and was not requested to be added to the place of use in Thompson Creek's transfer applications. Please issue amended transfer approvals deleting that particular area from the place of use associated with the tailings pond.

Please let me know if you have any questions or concerns or need anything else from Thompson Creek. Otherwise, thank you for your attention to this matter.

Dylan
