RE: Change of Ownership for Water Right License 29-7607

Dear Mr. McDaniel,

Per your request I am writing to review the process of splitting 29-7607 into two water rights of separate ownership.

Water right 29-7607 was licensed on September 27, 2011, authorizing diversion from three wells to supply domestic use to 60 homes. My understanding is that the intent is to split water right 29-7607, dividing the 60 domestic uses into one water right for 30 domestic uses applicable to the **1st Addition to Lacey Vista Acres Subdivision**, and another water right for the remaining 30 domestic uses applicable to the **Lacey Vista Acres Subdivision**.

Of the three points of diversion, my understanding that the two wells located in the NESW of section 32, T05S, R34E (Lot 21B), will be applicable to the portion of the original right retained by **Lacey Vista Acres Subdivision**, and the well (contaminated well) located in the NWSE of section 31, T05S, R34E (Lot 9A, Block 1), will be conveyed to the portion of the original water right applicable to **1st Addition to Lacey Vista Acres Subdivision**.

The division of both the place of use and points of diversion for 29-7607 needs to be clearly identified on the *Notice of Change in Water Right Ownership* form and the associated conveyance document.

When you are ready to split right 29-7607, you need to submit a completed *Notice of Change in Water Right Ownership* form, along with the documentation required on the form. This includes a filing fee of \$100 and the conveyance document showing that **1st Addition to Lacey Vista Acres Subdivision** was conveyed ownership of a portion of 29-7607.

Respectfully,

A handwritten signature in black ink, appearing to read 'Craig L. Saxton'.

Craig L. Saxton
Water Right Supervisor
