RE: Draft Application for permit 86-12024

Dear Mr. Auer:

I am returning the application you submitted and IDWR received on May 28, 2014. After our telephone conversation on June 4, 2014, I have prepared a draft application for permit for your review. Please look over the attached map carefully and make sure that the new proposed point of diversion is located where you think it should be. If it isn't, just cross out the old point of diversion location and draw in the new one.

Note that I added a "Diversion to Storage" use to the application. That is because of the proposed point of diversion that will convey water to the pond. I listed 0.38 cfs which is equivalent to 1 inch per acre (0.02 cfs) on 18 acres. From what you told me about how you plan to design the system, this might be excessive, but it is better than being short on permitted diversion rate and it won't affect the filing fees.

On page 2 of the application for permit, please **be sure to enter in the # of years required to complete the project (1-5).** I have highlighted this area in yellow.

Please review the application carefully and make any changes you feel appropriate. This is your application, not mine. When satisfied, sent the application to my attention along with the \$250 filing fee to:

ATTN: CRAIG L SAXTON
IDWR
PO BOX 83720
BOISE ID 83720-0098

If you have any questions, please contact me at 208.287.4916.

Respectfully,

Craig L. Saxton
