RAFN means total beneficial use of projected RAFN demand will occur by end of the planning horizon. These applications exclude the amount of water, water uses and the area of use (but not the well sites) approved for the City under Permit 63-32573 (aka M3 Eagle), so this is proposed use exclusive of M3 Eagle area. Total projected RAFN demand also excludes serving M3 Eagle area. Both applications propose the same 7 existing wells and an undetermined number of additional wells, all in about 50 alternative well locations, including well sites approved for M3 Eagle. Water bearing zone for both applications is 215 to 900 feet.
