RENTAL AGREEMENT CONDITIONS OF ACCEPTANCE

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
4. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
5. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.

DEPARTMENT OF
WATER RESOURCESAPPLICATION TO RENT WATER
FROM THE BOARD'S WATER SUPPLY BANKApplicant Name: John Spratling

Is this application being submitted with a lease application as a lease/rental package?

Yes ☒ No ☐

If yes, specify companion water rights in Section 4

This application must be completed according to the minimum requirement checklist below. This checklist is part of the rental application and must be included with the rental application. Applications that do not meet the minimum requirements will not be placed in the processing queue and may be returned until all minimum requirements have been met.

Rental applications should be submitted well in advance of the desired start date for the use of rental water. Rental applications may be processed as early as November 1 of the year prior to the intended use of rental water. Any rental application received on or before November 1 for use in the next year will be assigned a received date of November 1. Rental applications submitted more than one year in advance of the proposed start date for the use of rental water will not be accepted and will be returned to applicants. Rental applications may be returned to applicants if the desired start date for the use of rental water cannot be accommodated by the Water Supply Bank. Rental requests will not be accepted once the rental season of use period has concluded.

One rental application per beneficial use of water. For multiple beneficial uses of water, separate rental requests should be submitted for each unique beneficial use of water. One rental application can be submitted if you propose to rent water from multiple sources.

For additional instructions on completing a rental application, visit the Bank's website at http://idwr.idaho.gov/water_supply_bank.

2. MAP

Create a map of the proposed point(s) of diversion, place(s) of use and water diversion, delivery and distribution systems. Make sure the rental place of use is outlined and annotated with legal land descriptions (Township, Range, Section and Quarter-Quarters) or with GPS coordinates. For irrigation purposes, mark the number of acres you desire to irrigate. Attach the map to this application and label it Attachment 2.

3. DESCRIPTION OF PROPOSED USE FOR RENTAL WATER

A. Describe why you desire to rent water and provide a detailed description of your proposed use. If the proposed use is not for irrigation, describe in detail how you determined the amount of rental water required. If the space below is insufficient, attach additional sheets as required and label them Attachment 3A:

I would like to supercede an existing rental agreement (43-2574C, 43-2576C, 43-4013A, 43-4014C, 43-4014E) by changing a portion of the place of use and adding a point of diversion. I am proposing to move the small 1/2 pivot currently in Section 7 to the "middle" pivot in Section 31. The remaining rental place of use should stay in place.

B. Enter the desired and/or minimum rates of flow, volume, or irrigable acres requested for your rental purposes:

Desired Rate (Cubic Feet/Second)	Desired Volume (Acre-Foot)	Minimum Rate* (Cubic Feet/Second)	Minimum Volume* (Acre-Foot)	Desired Acres (if applicable)
1.0 CFS	240 AF	0.77 CFS	180 AF	45 min/60 max AC

* Sometimes water rights provide an exceptionally low rate per acre and/or low volume per acre. This section is meant to establish an acceptable range of water sufficient for your proposed water use. Please see question 4B and complete if necessary.

C. This section must be completed in full. Enter the proposed start date and latest possible start date for using rental water as well as the number of years you would like to rent water. The latest possible start is the latest possible date by which you would be willing to pay for a rental and be able to benefit from utilizing rental water.

Desired Start Date (month/day/year)	Latest Possible Start Date (month/day/year)	*Mark Desired Rental Duration (Calendar Years)					**Applicant's preference if rental application cannot be processed prior to the latest possible start?	
03/15/2017	4/15/2017	☒ 1	☐ 2	☐ 3	☐ 4	☐ 5	☒ Process application as soon as possible	☐ Return application to applicant

* The number of years permissible for a rental is subject to the lease contract duration for the water right(s) being rented.

** Per Idaho Code 42-201, it is unlawful to divert or use water without a valid water right. Water Supply Bank rental applicants are not authorized to utilize rental water prior to the execution of an approved rental agreement. Rental requests may be returned to applicants if no water is available from the Bank to fulfill a rental request.

Application to Rent Water (Continued)

- D. Describe your water distribution system and how rental water will be delivered from the point(s) of diversion (POD) to the proposed place of use (POU):

Pivot sprinkler tied into a system provided water by four existing wells (these wells are unchanged from existing rental). Addition: The pivot in Sec 31 gets water from the 4 wells to the north (Sec 19 and 30).

- E. Describe the physical type (pump, headgate, etc.) and location of the POD from which rental water is proposed to be diverted:

POD Description	Water Source	Other Water Rights Diverted from this POD
All PODs on existing rental	Ground	43-2512 et.al and WSB Rentals
10S28E19 (SWSE/NENE)	Ground	43-13317, 43-13714 thru 13719 and WSB Rental
10S28E30 (SWSE/NENW)	Ground	43-13317, 43-13714 thru 13719 and WSB Rental

If the POD(s) above are located where water is turned into a canal, lateral or ditch, or if they are located on your property but are serviced by water that is delivered via a canal, lateral or ditch, your rental request must include documented authorization from all relevant canal companies, irrigation districts and/or water delivery entities, confirming that they consent to your diversion of water from their system.

- F. Has documented consent from all relevant water delivery entities been obtained? Yes ☐ N/A ☒
If yes, include documented consent as Attachment 3F.

- G. Do any POD(s) identified in Question 3E divert from a water source that may require water modeling? Yes ☐ No ☒
Refer to the Water Modeling Requirements Information Sheet to determine if a rental POD may require water modeling.

- H. Has water modeling been provided with your rental request? Yes ☐ N/A ☒
If yes, label modeling Attachment 3 H.
Rental applications that require modeling will be returned if modeling is not provided.

- I. Specify the desired beneficial use of water and the requested season of use or number of acres required:

- ☒ Irrigation 45-60 (number of acres) Duration: Subject to IDWR standard seasons of use
- ☐ Commercial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Stockwater from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Industrial from: _____ (mm/dd) to: _____ (mm/dd)
- ☐ Other: _____ from: _____ (mm/dd) to: _____ (mm/dd)

- J. For irrigation uses, do you propose to divert water at a rate greater than 0.02 cfs/acre? N/A ☐ Yes ☐ No ☒
If yes, justify the rate of flow and attach any supporting documents as Attachment 3J. Justification may include information on soil composition, conveyance losses, crop type, irrigation systems, public access areas, etc. A rate of 0.03 cfs/acre is permissible for irrigation of 5 acres or less.

The rented water rights rate/acre is sufficient (0.017 cfs/ac)

- K. Do you own the land at the proposed rental place of use (POU)? Yes ☒ No ☐
If no, attach documentation from the POU owner/operator confirming your authorization to use the POU and label it Attachment 3K.

- L. List all other water rights and sources of water at the rental place of use for the same purpose, including privately owned water rights and water received from a municipal supplier, an irrigation district, a canal company or any other water delivery entity. Explain why additional water is required:

Rights at Section 31=43-13317, 43-13715, 43-13716, 43-13718, and 43-13719 and two WSB rentals. Rights at other locations = 43-2512 et.al

Application to Rent Water (Continued)

4. RENTAL REQUESTS FOR SPECIFIC WATER RIGHTS

A. Are you requesting to rent specific water rights?

Yes ☒ No ☐

If yes, specify below the elements of the water rights you are requesting to rent. If no, continue to Question 4B.

Important Information: Diversion rates and volumes sought for rent must be proportionate to the per acre diversion rates and per acre volume limits of the water right under lease contract to the Water Supply Bank. Prior to completing this section, applicants should review all water right lease contracts and any active rental agreements to determine which elements of a water right are available to satisfy a rental request. Lease and rental documents are searchable via [IDWR's website](#).

Water rights identified below must either already be leased to the Bank or a lease proposal should accompany this rental request. Rental requests for water rights not yet leased to the Bank will be returned if companion lease applications are not provided with the rental request. For leased rights featuring combined limits, rentals must be consistent with combined diversion rate, volume or acre limits. Combined limits should be listed on a row below water right numbers.

Water Right Elements Leased to Water Supply Bank					Leased totals, minus water right elements involved in active rental agreements, equals water right elements available for rent	Water Supply Bank Rental Request		
Water Right Number (leave blank if sub-total of combined limits)	Nature of Use	Diversion Rate (CFS)	Volume (AF)	Acres (AC)		Diversion Rate (CFS)	Volume (AF)	Acres (AC)

Applicants must ensure the requested rate per acre and volume per acre do not exceed the rate per acre and volume per acre limits of water rights leased to the Water Supply Bank					TOTAL			
						CFS	AF	AC

**Attach multiple copies of this page if space above is insufficient to list all water rights requested to be rented on this application.*

B. If water right conditions, combined limits, or the sum of all water right elements being requested provide an unconventional duty of water (e.g., an unusually low rate per acre or volume per acre for irrigation use), explain how your proposed rental will sufficiently accomplish your intended purposes. Attach a separate page if space is insufficient and label it **Attachment 4B**:

C. Does your rental request propose to change the nature of use for any water right(s) being rented?

Yes ☐ No ☒

If yes, explain how the water right(s) will be converted to new uses. Include the historic, consumptive use amounts for the water right being rented if you have it, as well as the new consumptive use amount for your proposed beneficial use. If space below is insufficient, attach a separate page and label it **Attachment 4C**:

5. ADDITIONAL INFORMATION

- A. Is this the first time that rental water is being requested for this purpose at the rental place of use? Yes ☐ No ☒
If no, list previous rental requests/agreements and explain why you have not secured a permanent water right for your needs:

- B. Have you or do you intend to submit an application for permit or transfer proposing a similar use as this rental? Yes ☐ No ☒
If yes, describe:

- C. Was this rental application submitted in response to a Notice of Violation (NOV) or a pending NOV? Yes ☒ No ☐
If yes, describe the date and location of the NOV.

Water Rental Application Narrative and Calculations to Support Rental

Water rights associated with the wells in Section 7 and 17 are 43-2512 et.al. Those water rights provide 19.44 cfs/1170 acre or 0.0166153 cfs/acre.

The water right associated with the POU in Sec. 31 are:

43-13715

43-13718 → 1.38 cfs/113 acres or 0.0122123 per acre

43-13716

43-13719 → 14.57 cfs/1193 acres or 0.0122129 per acre

43-13317 → 0.80 cfs/40 acres or 0.02 cfs per acre

WSB rental rate/acre = 0.77 cfs/45 acres or 0.0171111 cfs per acre

9.5 acres will be moved from a ½ pivot (with no existing water rights on it) to the pivot in Sec. 31 (the “middle” pivot). Physically, that ½ pivot has already been removed and will be dry in 2017. The number of acres requested to be moved is 9.5 acres. Although the rented diversion rate in 2016 is not required. The diversion rate as leased into the bank is sufficient to run the system which makes the available acre 15 acres.

Last year a WSB rental expired that will leave the “middle” pivot in Sec. 31 short 31.4 acres. Therefore, the 15 acres is meant to make up part of that difference. In addition, any available water leased into the Bank is being requested to complete the entire pivot (129 acre pivot – 100.2 acres existing coverage – 15 acres = 13.8 acres). If the renter cannot secure the extra acres, an endgun and outer pipe will be taken out to bring the pivot under whatever is authorized.

Based on the evaluation above, the WSB rental water provides plenty of water per acre that would avoid enlarging the rental rights diversion rate.

Wells at the north farm (Relar) can produce 6500 to 7000 gpm (0.0115877cfs/ac)

Wells at the south farm (Spratling) can produce 7200 to 8200 gpm (0.0156161cfs/ac)

Note these systems are not interconnected.

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. I have enclosed a **Water Supply Bank Rental Agreement** for your review and signature. Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$3,060.00 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 180.0 acre-feet.

We have already received this payment under receipt C102942. Please send the signed rental agreement, within 14 days so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$2,754.00 of the rental fee will be paid to the lessor(s) and 10% or \$306.00 will be retained by the Department to offset administrative costs.

If you have any questions, please contact this office at (208) 287-4800.

Sincerely,

Water Resource Agent Sr.

Dear Applicant:

The Department of Water Resources ("Department") mailed a **Water Supply Bank Rental Agreement ("Agreement")** for your review and signature on June 13, 2017. The signed agreement and rental fee has not been returned to the Department.

Please sign the rental agreement and return it with the rental payment in the amount of \$3,060.00 within ten (10) days of this letter to complete processing. Diversion and use of the water rights is not authorized under the proposed agreement until it has been signed by both the renter and the Department. Any use associated with your proposed rental request before it has been executed is considered unauthorized and, if occurring, will be subject to any necessary enforcement action.

If the signed rental agreement and fee is not received by the department within the 10-day period, the rental application will be returned, and the proposed rental rights made available for other rental applicants. You can reapply to rent water from the Bank again in the future by submitting a new rental application form that will be processed in turn with other pending applications.

If you have questions regarding this matter, please contact this office at 287-4800.

MEMORANDUM

To: Right(s) 43-2574C, 43-2576C, 43-4013A, 43-4014C, & 43-4014E
From: Sandra Thiel
Date: June 1, 2017
Re: Review & Analysis of John Spratling Application to Rent Water from the Water Supply Bank

This rental is intended to supersede a rental approved in 2014 for 39.5 acres.

PURPOSE/NARRATIVE: On February 27, 2014, John Spratling submitted an application to rent water from the Water Supply Bank. The application proposed to rent water to irrigate an additional 39.5 acres in T11S R28E for as many years as possible, beginning with the 2014 irrigation season. The current rental application requested a minimum of 45 acres. The available water rights provide 44.6 acres.

The proposed points-of-diversion are 5 existing wells currently in a single system to irrigate 1,170 acres authorized by existing water rights.

According to the rental application received on March 8, 2017, Mr. Spratling would like to change a portion of the place of use and add a point of diversion. He proposes moving the small ½ pivot in section 7 to what he identifies as the middle pivot in section 31.

AUTHORITY TO FILE: The Cassia County tax lot information show John B. Spratling as the owner of the land to be irrigated under the proposed rental. Mr. Spratling signed the application.

WATER RIGHT VALIDITY: Portions of Water Rights 43-2574C, 43-2576C, 43-4013A, 43-4014C, and 43-4014E are leased to the State Water Supply Bank. They are available to rent through December 31, 2017.

A review of aerial photography shows that portions of the water rights appear to have been idled at the authorized place-of-use. The idled acres are primarily pivot corners. The leaser has agreed to idle these acres as part of a Conservation Reserve Program Contract with a contract period of 2012 to 2022.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the rental. The rights that share the proposed rental diversion system provide 0.12 cfs per acre to 0.02 cfs per acre. The rental provides 0.017 cfs per acre.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

The rented rights are for ground water within the Raft River Critical Ground Water Management Area.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: Southern Region did not respond to request for comments.

Rental Fee: \$3,060.00

The fee for rental of the above-described water is \$3,060.00 per year. Ten percent (\$306.00) will go to the Department for administrative costs, and the remainder will be paid to the lessor(s). An annual payment shall be received by the Department prior to February 15 each year for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. To terminate the agreement prior to the end of the rental period, written notice must be received by the Department at least 30 days prior to the rental fee due date.

No rental fees will be refunded once the fee is collected and the start date for a Rental Agreement has passed.

CONDITIONS APPLICABLE TO ALL RENTED WATER RIGHTS

1. The use of water under this agreement shall be subject to the provisions of Idaho Code § 42-1766.
2. Rental of the specified right from the bank does not, in itself, confirm the validity of the right or any elements of the water right, or improve the status of the right including the notion of resumption of use. It does not preclude the opportunity for review of the validity of this water right in any other department application process.
3. Use of water under this agreement does not constitute a dedication of the water to renter's place of use, and upon expiration of this agreement, the points of diversion and place of use of the water shall revert to those authorized under the water right and/or again be available to rent from the bank.
4. This rental does not grant any right-of-way or easement to use the diversion works or conveyance works of another party.
5. Use of water under this agreement shall not prejudice any action of the Department in its consideration of an application for transfer or permit filed by the applicant for this same use.
6. Renter agrees to comply with all applicable state and federal laws while using water under this agreement.
7. Renter agrees to hold the Board, the Director and the state of Idaho harmless from all liability on account of negligent acts of the renter while using water.
8. Renter acknowledges and agrees that the Director may terminate diversion of water if the Director determines there is not a sufficient water supply for the priority of the right or portion thereof being rented.
9. Failure of the renter to comply with the conditions of this agreement is cause for the Director to rescind approval of the rental agreement.
10. This rental agreement does not authorize the construction of a well.

11. This right when combined with all other rights shall provide no more than 0.02 cfs per acre nor more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
12. The use of water for irrigation under this right may begin as early as March 15 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after November 1 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

**RE: APPLICATION TO RENT WATER FROM THE WATER SUPPLY BANK
WATER RIGHT NO(S). 43-13681, 43-13682 AND 43-13683**

*****TIME SENSITIVE RESPONSE REQUIRED*****

Dear Applicant:

The Department of Water Resources acknowledges receipt of your application to rent water from the Water Supply Bank. **I have enclosed a Water Supply Bank Rental Agreement for your review and signature.** Upon signature and return of the original agreement, together with the rental fee described below, the Department will also sign the original agreement and return an executed copy to you. Execution of the agreement and compliance with the conditions of approval authorize diversion and use of water as provided in the agreement.

A rental fee of \$1,305.60 was calculated based on the current rental rate of \$17.00 per acre-foot times a diversion volume of 76.8 acre-feet. An annual payment shall be received by the Department prior to the execution of this agreement and prior to February 15 in all subsequent years for the duration of the rental period. The agreement will be void if payment is not received prior to the due date in a given year. If you would like to terminate the agreement prior to the end of the rental period, you must submit written notice of your intent to the Department at least 30 days prior to the rental fee due date.

Please send a check for \$1,305.60 made payable to the Idaho Department of Water Resources, **together with the signed rental agreement, within 14 days** so I can complete processing. Pursuant to the Water Supply Bank Rules, 90% or \$1,175.04 of the rental fee will be paid to the lessor(s) and 10% or \$130.56 will be retained by the Department to offset administrative costs.

If you have any questions, please contact me at (208) 287-4944.

Sincerely,

Cherie Palmer

Re: Review & Analysis of John Spratling's Application to Rent Water from the State Water Supply Bank for 19.2 acres

PURPOSE/NARRATIVE: On February 27, 2014, John Spratling submitted an application to rent water from the State Water Supply Bank. The application proposes to rent water to irrigate an additional 19.2 acres in Twp 10S Rge 28E for as many years as possible, beginning with the 2014 irrigation season.

The proposed points-of-diversion are 4 existing wells currently utilized in system to irrigate the acres authorized by existing water rights and a 2013 WSB rental. A private agreement between John Spratling and Idaho Gold Farms, Relar Farms, and ADT Farms grants Mr. Spratling access to the wells.

AUTHORITY TO FILE: According to available Cassia County taxlot information, John B. Spratling owns the proposed place-of-use. Mr. Spratling signed the application.

WATER RIGHT VALIDITY: Portions of Water Rights 43-13681, 43-13682, and 43-13683 are leased to the State Water Supply Bank. They are available to rent through December 31, 2017.

A review of aerial photography shows that portions of the water rights appear to have been idled at the authorized place-of-use. The idled acres are primarily pivot corners. The lessor has agreed to idle these acres as part of Conservation Reserve Program contracts.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the rental.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The rental appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The rented rights are for ground water within the Raft River Critical Ground Water Management Area. Southern Region will be consulted.

The POU shape for this rental was adapted from a shape created by C Skinner (IDWR Southern). The wedge in the NW portion of the pivot is covered by Water Right 43-13715 and others. (See transfer 78550).

The phone number listed on the application is incorrect. Mr. Spratling can be reached at 208-654-2016 or 208-431-2016(cell).
