RE: Water Right Permit No. 65-22953

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on information obtained from Bryon L. McCombs, Land Surveyor for BLM, the following information has been changed for Section 32 NENW Lot 3, to show the property there without any quarter-quarter designation for both the Point of Diversion and Place of Use.

☒ **Point(s) of Diversion (Sec 32 Lot 3)**

☒ **Place(s) of Use (Sec 32 Lot 3)**

☐ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days.

If you have any questions, please call me at (208)287-4920.

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent
