RE: Water Right Permit No. 65-22950 and 65-22953 Amendments for Licensing Purposes

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion (for 65-22953 only)**

☒ **Place(s) of Use (for both 65-22950 and 65-22953)**

☐ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. A copy of everything was sent directly via email to Dana L. Hofstetter on January 10, 2014, to get back with me within 21 days (acknowledged by the attached email from Ms. Hofstetter). If you concur with the information presented, please sign the form and return it with the \$100.00 each (\$200 total) filing fee by January 31, 2014.

If you have any questions, please call me at (208)287-4920.

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent

Sandy,

Thank you for the reminder - I will contact George and try to get back to you within the 21 days.

Thank you,
Dana

Dana,
Could you please acknowledge that you received this email, and are working on this?

Thanks,
Sandy

Subject: Colwell water rights 65-22950 and 65-22953 (for Licensing)
Importance: High

Dana,

Here are the last two (2) water rights that I have been working on for George Colwell (65-22950 and 65-22953). With each of them, they require amendments to incorporate changes made when I was out with Mr. Colwell while conducting the beneficial field examination.

Attached to this email is the following:

- (1) 65-22950 Application for Amendment
 - (a) Attachment for Amendment to the Water Right License (map)
 - (b) A copy of the actual map that was used in the field, and confirmed by George Colwell as POU and POD locations.
 - (c) An expanded map, to confirm the quarter-quarters.
 - (d) A copy of the memo that was placed in the file, when determining the maximum diversion rate and maximum diversion volume, and explanatory conditions.
- (2) 65-22953 Application for Amendment
 - (a) Attachment for Amendment to the Water Right License (map)
 - (b) A copy of the actual map that was used in the field, and confirmed by George Colwell as POU and POD locations (actual quarter-quarters could be clearly determined by this map).
 - (c) A copy of the memo that was placed in the file, when determining the maximum diversion rate and maximum diversion volume, and explanatory conditions.

Please review these water right amendments with Mr. Colwell, and if everything is approved, sign and return each with a \$100 amendment fee (\$200 total) within 21 days, to allow you time to get with your client.

Thank you,

Sandy Hemenway
