RE: Water Right Permit No. 65-22950 and 65-22953

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on the examiner's report, the following elements were developed differently than described on your permit:

☒ **Point(s) of Diversion (65-22953)**

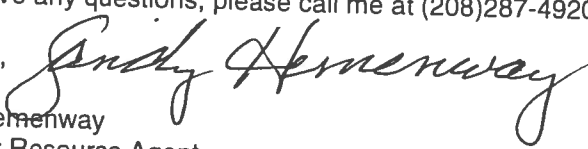

☒ **Place(s) of Use (65-22950 and 65-22953)**

☐ **Other**

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it with the \$100.00 each (\$200.00 total) by February 7, 2014, as agreed on in a January 29, 2014 email from Dana Hofstetter, or these permits will be Voided.

If you have any questions, please call me at (208)287-4920.

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent

Dana,

Management suggested that I mail out a hard copy letter referencing our extension agreement of 2/7/2014.

Please find a copy of that letter attached. A hard copy is also in the mail.

Thanks,
