RE: Water Right Permit No. 65-22950

Dear Permit Holder(s):

The Department of Water Resources is reviewing the permit referenced above prior to issuing a water right license. By issuing a license, the Department confirms the extent of development that has been established in compliance with the terms of the permit. The examiner who verified your water use reported that certain elements of the permit have been developed differently than described on your permit. Changes that do not increase the authorized use of water under the permit can be requested and approved in accordance with Section 42-211, Idaho Code. Before a license can be issued, your permit must be amended to depict your water use as it was actually developed.

Based on information obtained from Bryon L. McCombs, Land Surveyor for BLM, the following information has been changed for Section 29 Lot 2 without any quarter-quarter designation for both the Point of Diversion and Place of Use.

☒ Point(s) of Diversion (Sec 29 L2, and Sec 32 NWSE)

☒ Place(s) of Use (Sec 29 L2)

☐ Other

The enclosed Application for Amendment form depicts the elements of the water right as they will appear on the license when it is issued. Please review the amendment form carefully. If you concur with the information presented, please sign the form and return it within 14 days.

If you have any questions, please call me at (208)287-4920.

Sincerely,

Sandy Hemenway
Sr. Water Resource Agent

ACTION OF THE DEPARTMENT OF WATER RESOURCES

I, GARY SPACKMAN, of the Department of Water Resources hereby approve the above Application for Amendment for Permit No. 65-22950 with the following:

CONDITIONS OF APPROVAL

1. This right does not authorize construction of any new drains or enlargement of any existing drains.
2. To the extent that the source of water diverted under this right is waste water, it is subject to the right of the original appropriator, in good faith and in compliance with state laws governing changes in use and/or expansion of water rights, to cease wasting water, to change the place or manner of wasting it, or to recapture it.
3. The annual diversion rate and volume identified for this right are the rate and volume of water that can be consumed by the stock. This right shall not limit the rate and volume of water that may flow in the unnamed drain.

Witness my hand this _____ day of _____, 2014.

GARY SPACKMAN
Director
