RE: Water Right Permit No. 65-22950 & 65-22953

Dear Permit Holder(s):

Sandy Hemenway, Sr. Water Right Agent, was assigned to review permits 65-22950 and 65-22953. Ms. Hemenway determined that that certain elements of the permits have been developed differently than described on your permits. Because of this, she had explained that the permits would need to be amended to recognize these changes at licensing. M. Hemenway has recently retired and I have taken over responsibility to bring permits 65-22950 and 65-22953 to resolution.

During my review of the files, I found signed amended permits 65-22950 and 65-22953, submitted on February 7, 2014. However, notes in the file are unclear as to if the February 7, 2014 permit amendments are the ones that you intended to move forward with. For your convenience, I have enclosed copies of the February 7, 2014 amendments. If you find that February 7, 2014, amendments accurately represent the developed water use, please contact me and I will move forward with issuing the license.

In the event that the February 7, 2014, amendments do not represent your developed water use, please either contact me, or submit new amendments by May 28, 2014. If you choose to submit new versions of applications for amended permits 65-22950 and 65-22953, I will consider the February 7, 2014, versions withdrawn and replaced with the new version.

If I do not receive a response by **May 28, 2014**, I will move forward to issue licenses based on the February 7, 2014, amendments.

If you have any questions, please call me at (208) 590-2690.

Respectfully,

Craig L. Saxton
Water Rights Supervisor
