Re: Protest against Application for Permit No: 63-33857

In the name of : Sandstone Farms, LLC

1888 E. Rodeo Lane, Kuna, Id 83634

Phone: 866-0346

I am filing a protest for improper use of ground water.

Residential wells can be used to irrigate ½ acre of ground, it also requires that surface water be used before any excessive use of ground water for extensive irrigation on more property. This law was issued in 1990. Mr. Hansen had use of surface water for his needs when it was available through New York Irrigation District.

On Application for Permit under question #7B, wasn't answered properly, question E needs better clarification on 2.5 acres of grapes, indicating watering 3 times a year, upon researching grape watering we believe he is requiring watering much more than that, question #9 has been left blank for access to New York Irrigation.

In reading Chapter 17 of Water Resources Board we feel Mr.Hansen has been willful in violation of the intention of ground water use on his 5 acres for non-domestic use.

If Mr. Hansen is not denied then there must be proof that the application will not cause adverse affects to the surrounding well owners as there is limited groundwater

Thank you for your attention to this protest. Enclosed is a check for \$25.00

Sincerely,

A handwritten signature in black ink, appearing to read "Robert Huff", written in a cursive style.

Robert Huff

We are filing a protest for improper use of ground water.

Residential wells can be used to irrigate $\frac{1}{2}$ acre of ground, it also requires that surface water be used before any excessive use of ground water for extensive irrigation on more property. This law was issued in 1990. Mr. Hansen had use of surface water for his needs when it was available through New York Irrigation District.

On Application for Permit under question #7B, wasn't answered properly, question E needs better clarification on 2.5 acres of grapes, indicating watering 3 times a year, upon researching grape watering we believe he is requiring watering much more than that, question #9 has been left blank for access to New York Irrigation.
