Re Permits To Appropriate Water No. 63-31526, 63-12316 and 63-12317

Dear Mr. Fowers:

The permits referenced above were issued for various uses within the Paradise Pines Subdivision from various sources as described below. This letter is to request that you call me to schedule the field exam for these permits. A field exam is required by Idaho law before a license can be issued, at which time it becomes a water right. The licenses are the end product needed for continued water use.

63-31526 was permitted for a recreation use of water for a soaking pool from two springs. I'll GPS the springs and will need an as-built schematic of how the water is delivered to the pool.

63-12316 was permitted for a heating use in one home and a recreation center from two geothermal wells. I'll GPS the wells and will also need an as-built schematic of how the water is delivered to the home and recreation center.

63-12317 was permitted for internal domestic use in one home and a recreation center, and stockwater for 10 horses, from two cold water wells. I'll GPS the wells and will also need an as-built schematic of how the water is delivered to the home and recreation center.

In addition to the schematics, please have ready to provide copies of pump and motor information.

I will be conducting exams in this area on Monday and Tuesday, May 13 and 14, 2013. Please call me at 208.334.2190, **by May 6, 2013**, to set an appointment for the exam. Failure to respond to this letter request may result in the permit being voided or a license issued for less than the permitted amount. Thank you.

Sincerely,

Vicky Music
Sr. Water Resource Agent
