Re: Review & Evaluation of Sufficiency of Information

Transfer 79257 proposes to change the place of use and point of diversion for a portion of water right 31-11738. Applicant proposes to dry up 5.3 acres from water right 31-11738 and move them to another location that needs to be irrigated. This proposed change will move the point of diversion for the new 5.3 acres to the same point of diversion that the applicant uses for water right 31-11921 which he also owns.

The applicant originally applied for 0.12 cfs, after the calculations were checked this number was reduced to 0.11 cfs and will be reflected in the approved transfer documents.
