Subject: Water Supply Bank Release

Hi Denise,

Thank you for your emails. It appears that the city has fulfilled their water needs at the end of 2013 and does not need any water pursuant to the rental during the 2014 season. I have marked the 2014 rental as withdrawn. You do not need to do any other action as far as the rental of water is considered.

If you would like to release all the water rights that were leased into the bank, please submit a release form for each water right. The water rights that were leased for 2013 were:

41-2B
41-25C
41-32F
41-33B
41-10256

Please complete and mail the original signed form to us as soon as you can.

Thanks and let me know if you have any questions.

Denise,

Thank you for contacting IDWR regarding your water supply bank lease/rental agreements. I looked over the rental agreement and condition no. 15 says:

The city of Rockland shall submit a report ot the Department of Water Resources stating their accomplishments during 2013 and 2014, in reference to the one time fill of the lagoon.

If the completion of the lagoon fill has been completed, I will need a report pursuant to the condition prior to releasing the rights from the bank.

I look forward to speaking with you on this matter. Have a great weekend.

Cherie Palmer;

The City of Rockland is responding to the IDWR water supply bank lease/rental agreement condition no. 15 which says: The city of Rockland shall submit a report to the Department of Water Resources stating their accomplishments during 2013 and 2014, in reference to the one time fill of the lagoon.

In early spring of 2013 the new winter storage lagoon was completed. The storage lagoon was filled with the following; wastewater, dewatering from the trenching, culinary water for the pressure testing & filling of the transmission line, testing of the manholes and lift station. The contractor was working on these items in November of 2013. The contractor has completed a seepage test and is waiting to hear from DEQ for the results of the seepage test. Currently the Wastewater project is in winter shutdown.

Cherie,

I was talking to Sandy Hemenway and she stated that you are now over the Water Rights. The City of Rockland has filled out a Request To Release A Water Right From The Bank form. The City would like to put the water right back at the original point of diversion for the year 2014. I put on the form that the release date was 3-31-14. This date could be earlier. The lagoon is filled and the City is waiting for a response from DEQ on the seepage test results. When the City receives the results I will forward that information to you.

You can contact me at work 208-548-2421 or on my cell 208-221-2421.

Thank you,

Denise Ralphs

City Clerk
