Re: Application for Transfer, Water Right Nos. 65-23462 & 65-23464

Dear Applicants:

Your application for transfer is returned. Your shared ditch point of diversion on Warm Springs Creek cannot be changed to McBride Creek, a separate and parallel stream.

However, a couple other options might interest you. One, you may seek a new water right from McBride Creek by filing an Application for Permit (\$100 fee). Two, you may propose a different and/or additional diversion point(s) on Warm Springs Creek by filing another Application for Transfer (\$200 fee). This assumes you would be able to obtain an easement or right-of-way through one or more landowner's property.

The \$200 you already paid could be applied to another application. Any overpayment in that regard would be refunded to you. A full refund will be processed if the department does not receive another application from you within the next thirty (30) days.

IDWR forms and other information are available on the Internet at www.idwr.idaho.gov. Please contact me at 208-334-2190 if you have any questions or need any help with this. Thank you for your attention to these matters.

Sincerely,

Steve Lester
Water Rights Supervisor
