MEMORANDUM

To: Water Right No(s). 2-2371 AND 2-10032

From: Jean Hersley through Pam Skaggs

Date: April 23, 2014

Re: Review of Applications to Lease Water Rights to the State Water Supply Bank

PURPOSE/NARRATIVE: The Department received requests for extension of Lease of Water right to the Bank on December 23, 2013. When the proposed contracts were sent, the applicant decided to change the number of acres, diversion rate and diversion volume to be leased to the Bank. The original applications were considered withdrawn and new applications were received on April 16, 2014.

These water rights share a common system with senior priority rights 2-2186, 2-10034, 2-10035 and 2-10477 under separate ownership (ATN Holdings LLC) and have a combined diversion rate limit condition. Leased portions of ATN rights are limited only by the elements of each right without any combined right limits. The leased portions of the MAN rights are only available for rental with the leased portions of the ATN rights since they are dependent on the rate associated with those rights. An email dated 9/6/2012, from John Marshall, attorney for the right holders, indicates the rights are all managed by the same family (Mark Noble of MAN Farms and Allen Noble of ATN Holdings). The Nobles divert less than 71 cfs in combination which will be reduced to reflect non-irrigation of the leased acres. See review spreadsheet in file.

AUTHORITY TO FILE: the applications were signed by Mark Noble, registered agent of MAN Farms the current right holders of these leased rights.

WATER RIGHT VALIDITY: These water rights were decreed in 2011. Portions requested to be leased have been in the Bank since 2012.

INJURY TO OTHER WATER RIGHTS: No injury is apparent.

ENLARGEMENT OF USE: No enlargement is evident through the lease alone. Proper rental review should protect against enlargement.

LOCAL PUBLIC INTEREST: Review staff has no information to suggest this application is inconsistent with the local public interest.

BENEFICIAL USE/CONSERVATION OF WATER RESOURCES: The lease appears consistent with the conservation of water resources in Idaho.

DEPARTMENT STAFF OR WATERMASTER COMMENTS: The leased right(s) are subject to Water District # 02. POD is located within Water District 02. The water master approved the original applications. The new applications are reduced acres and rates. New comments were not necessary.
