Mike,

We've reviewed your revised language and, although we understand you're trying to gain some level of acceptance for the work effort completed, we think it creates an ambiguity. By saying it will offset depletions and following with the statement that the sufficiency will be determined in the future only creates confusion. The Department is only authorizing recharge in the approval and recognizing how it might be used. We can't declare that it will offset depletions in isolation because that determination must be part of the future review under a mitigation plan.

Jeff

Dear Jeff,

Thank you again for discussing the Valley Club transfer condition with me and Chuck Brendecke this afternoon. Attached is a mark-up of the condition incorporating a requested revision. Please let me know if this is an acceptable approach.

Sincerely,

Mike
