Re: Water Permit No. 63-33415

Dear Mr. Yamamoto:

The above referenced irrigation permit was approved September 25, 2013. The permit included a condition of approval stating:

Project construction shall commence within one year from the date of permit issuance and shall proceed diligently to completion unless it can be shown to the satisfaction of the Director of the Department of Water Resources that delays were due to circumstances over which the permit holder had no control.

Development under the permit should start by September 25, 2014. Your April 2, 2014, letter identified expensive repair problems for two existing wells last year. Based on your information, the cost and time needed for those repairs prevents commencement of timely development of your permit. Your explanation satisfies the above criteria.

Therefore, you should start construction under Permit No. 63-33415 by September 25, 2015. This extension does not change the proof of beneficial use date for the permit, October 1, 2018. Also, your letter provided an updated mailing address for the permit. Updated addresses for your remaining water rights are pending as you requested.

Please contact me at 208-334-2190 if you need more information.

Sincerely,

A handwritten signature in black ink, appearing to read "Steve Lester". The signature is fluid and cursive, with a prominent initial 'S'.

RE: South Ada County Ground Water Area
Ground Water Application for Permit: 63-33415—D. Yamamoto Development LLC

Dear Mr. Westra,

With regards to the above Ground Water Application, I am requesting an extension on the commencement of any project construction.

Midway and towards the latter part of the 2013 irrigating season, two established deep wells showed signs of performance problems. In January of this year, I had various tests and procedures done that determined the wells will need extensive repair and service to make them operate properly. By my estimates, the time and expense of repairing the two wells will be significant. As well, there will not be enough time to begin a new project.

Please call or write me about a decision regarding the extension.

Thank You,

Duane Yamamoto
