Subject: Final Order Extending Moratorium

On April 29, 2014, I mailed the attached Final Order Extending Moratorium to all permit holders and applicants for permit that were within the Boise Front Low Temperature Geothermal GWMA.

I based my mailing upon the current owners, representatives, and attorneys that were entered in the database. Unfortunately, you were not listed as the attorney of record for any of the City of Boise permits within this moratorium area.

Please let me know if you'd like me to add you as attorney for all the listed permits or just 63-9138 and 63-9139.

Thank you,
Emalee
