

MEMORANDUM

Date: April 28, 2014
To: Transfer 79290
From: Heather Bohac
Re: Review & Evaluation of Sufficiency of Information

This transfer proposes to change the POU for stock water right 25-12415. Department records list the place of use in T03N instead of T03S, R42E, Sec. 15, which is in error. The applicant filed this transfer to correct the POU to T03S instead of T03N.

Authority to File:

Dennis Lake is the current registered agent of Lake Family Ranches Inc. Lake Family Ranches currently owns the land at the POD and POU. A warranty deed and business entity annual report form have been provided.

Water Right Validity:

Active water right 25-12415 was decreed in the SRBA in 1999. It has not undergone any periods of non use and has historically been used at the proposed POU. This water right is located within Water District 01. Watermaster does not oppose this transfer. This transfer will be processed with no advertisement.

Injury to Other Water Rights:

No issues identified.

Enlargement of Use:

No issues identified.

Review of the application finds there is no clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this application.
