

6. GENERAL INFORMATION

- a. Describe the complete diversion system, including how you will accommodate a measuring device and lockable controlling works should they be required now or in the future:

Wells and pumps. Measuring devices and controlling works will be accommodated upon the Department's request.

- b. Who owns the property at the point(s) of diversion? Applicant

If other than the applicant, describe the arrangement enabling the applicant to access the property for the diversion system:

- c. To your knowledge, has/is any portion of the water right(s) proposed to be changed:

Yes No

- ☐ ☒ undergone a period of five or more consecutive years of non-use,
☐ ☒ currently leased to the Water Supply Bank,
☐ ☒ currently used in a mitigation plan limiting the use of water under the right(s), or
☐ ☒ currently enrolled in a Federal set-aside program limiting the use of water under the right(s)?

If yes, describe _____

7. **MAP** - ☒ Attach a map of the diversion, measurement, control and distribution system. Clearly label the map with township, range, section and $\frac{1}{4}$ $\frac{1}{4}$ of section information. The *Map Tool*, available at <http://maps.idwr.idaho.gov/TransferApplicationLayouts/> provides a satisfactory template for creating the required map.

8. **SIGNATURE** - The information in this application is true to the best of my knowledge. I understand any willful misrepresentations in this application may result in rejection of the application or cancellation of an approval.

Signature of applicant or authorized agent

Mike Barton, PARKS SUPERINTENDENT
Print name and title if applicable

PROPOSED CHANGE OF WATER RIGHT

The City of Meridian of 33 E. Broadway Ave., Meridian, ID, 83642, filed Application No. **79168** to transfer one water right with a 1992 priority date from a ground water source totaling 0.78 cfs. The purpose of the transfer is to add a point of diversion for irrigation purposes. Water will be used at the current place of use on the east side of Locust Grove Road, south side of Lake Hazel Road, north side of Gollop Road and about 1.5 miles east of South Cloverdale Drive.

Permits will be subject to all prior water rights. For additional information concerning the property location, contact Western Region office at (208) 334-2190; or for a full description of the rights &/or proposed transfer, please see www.idwr.idaho.gov/apps/ExtSearch/WRFiling.asp. Protests may be submitted based on the criteria of Sec 42-222 and 42-203A, Idaho Code. Any protest against the approval of this application(s) must be filed with the Director, Dept. of Water Resources, Western Region, 2735 Airport Way, Boise, ID 83705 together with a protest fee of \$25.00 for each application on or before 5/19/2014. The protestant must also send a copy of the protest to the applicant.

RE: Application for Transfer of Water Right No. 63-33318

Dear Lori:

We are in the process of reviewing the above referenced Application for Transfer No. 79168. We have concerns about possible injury that may be caused by development of this new well. Information shall be submitted concerning any design, construction, or operation techniques which will be employed to eliminate or reduce the impact on other water rights and wells within a ¼ mile area of the proposed well. Since the existing well is east of this proposed well, we only need to have information in regard to wells that are north, south and west of this proposal.

We will go ahead and advertise this application; however, we will not take final action in this matter until you have submitted the above requested information. If you have any questions, please feel free to contact this office.

Sincerely,

A handwritten signature in black ink, appearing to read 'Kay', is written over the printed name 'KAY WALKER'. The signature is fluid and cursive.

KAY WALKER
Sr. Water Resource Agent

MEMORANDUM

TO: Transfer No. 79168

FROM: Kay Walker *KW*

DATE: April 9, 2014

RE: Evaluation of Application

The transfer proposes to add an additional well to an existing supplemental irrigation system.

The site is located on the east side of Locust Grove Road, south side of Lake Hazel Road, north side of Gollopy Road and about 1.5 miles east of South Cloverdale Drive.

Contact person for the applicant is Lori Graves with SPF Water Engineering, 300 E. Mallard Dr., Boise, ID, 83706 and phone number: 343-4140.

Summary of Information Submitted

This application was filed on the short transfer form since they only plan to add a well to an existing license. The transfer was completed correctly and all information was included.

Authority to File:

The water right is in the name of the transfer applicant.

Water Right Validity:

Right presumed to be valid. SRBA is not applicable to this right developed after 1987. Recent beneficial use confirmed via aerial photography dated 2009 and 2011. It appears the fields were prepared for planting in the 2013 aerial photography but did not look like it had received any water.

Injury to Other Water Rights:

The addition of a well should not cause injury to other water rights if the parameters of the license are complied with.

Enlargement of Use:

No enlargement should occur. This right is for supplemental use on 75 acres. The right is limited to use when irrigation district water is not available and limits the use of water to an inch per acre and 4.5 af per acre when all rights are combined.

Local Public Interest:

It is within local public interest to allow property owners to keep their land irrigated and productive.

Beneficial Use/Conservation of Water Resources:

The application proposes beneficial use consistent with conservation of water resources in Idaho.

The application is consistent with criteria of I. C. § 42-222 and should be processed.

Additional Information

Additional information applicant should provide consists of information concerning how they plan to develop the system so that it does not cause injury to other wells in the area. Information will be requested for information within 0.25 miles from the proposed point of diversion to the north, west and south. The existing well is just to the east of the new well so we won't pursue information in that direction.

Overlapping rights at existing &/or proposed POD are Rt. 63-33320 (which is a permit for the City of Meridian for irrigation use) and Rt. 63-33317 (in the name of Greg Johnson for irrigation use). The place of use is overlapped with rights from New York Irrigation district, City of Meridian and the City of Kuna for municipal uses.

Summary

Assuming protests are not filed and/or other information does not contradict the above analysis, the application can be approved as reflected by the draft approval.

Condition 046 is applicable since a new well is proposed.
