RE: Water Right 75-7491

Mr. Behm,

I am doing a review for licensing Water Right Permit 75-7461 in the name of William McKnight. All my research indicates the property covered by this permit, attached, is property you now own. Do you know if you bought it from him? I have enclosed a Change of Water Right Ownership, which I would encourage you to fill out and send back with the \$25 filing fee. You will also need to include a copy of the deed or sales agreement (McKnight's name may be on one of these) specifying the property description. See item 7 on the form. I have also attached a printout of your property. Could you please delineate on it where the irrigation of 2.5 acres generally takes place, and the location of the well which provides the water. This needs to be included in the Change of Ownership as well.

As for the well, do you have any information on when it was drilled, the size of the pump, or an idea of the discharge it can provide, in gallons/minute? Any information is helpful in preparing the license as accurately as possible.

If you would like, feel free to call me at 208-287-4915 to discuss any of these requests, or other questions you may have. If I haven't heard anything from you, in writing or by phone, by Friday, March 28th, I will proceed with licensing this right in the name of William McKnight.

Sincerely,

Michael Ciscell
Senior GIS Analyst
