Subject: Re: Request for Extension of Time Received for Permit 36-16962

Thank you for this reminder. We will request the four year extension. We are still in the process of developing the project. A stub Pivot to alleviate hand lines and an over all test of the system.

Thank you again.

Monty B. Montgomery

Re: Extension Request filed for permit no. 36-16962

Dear Mr. Montgomery:

The Department is in receipt of your request for extension of time to submit proof of beneficial use for the above mentioned water right permit.
You have asked for a 5 year extension.

According to Section 42-204, Idaho Code, you are allowed an initial development period of 5 years and only one extension request after that for up to 5 more years. You have only used 1 year of the initial 5 year development period allowed under the permit. If you were to request 4 years on this extension request form you would be able to file one more extension request later for up to 5 more years. If not, and you wish to keep this extension request for 5 years then this extension would be your last extension request that the Department would accept.

However, in order for me to modify your request for extension of time form I would need a written request from you stating that you would like to have your extension request form modified to reflect a 4 year extension in lieu of the 5 years currently stated on the form. A reply to this email could be used as your written request to modify your form. Please respond as soon as possible, and be as specific as you can in your reply.

Sincerely,

Darla Block
