Drilling Permit ID Tag No. _____

Water Right Application ID 85-16759

REQUEST FOR EXPEDITED ISSUANCE OF A DRILLING PERMIT

Gregory E Phillips, The Property Owner
(Applicant), requests issuance of a Drilling Permit prior to obtaining the required water right. The request is made by the applicant for the following reason(s):

To get the well started.

The Applicant understands that the approval of a drilling permit and subsequent construction of a well does not constitute an approval of a water right or intent to authorize diversion or use of water from the well in any way.

Additionally, the Applicant acknowledges that by obtaining a drilling permit and constructing the well, the Applicant accepts all risk(s) associated with completing the well prior to obtaining the associated water right. If the water right is not ultimately approved for use, the applicant understands that the Department may require decommissioning of the well.

Application For Permit No. 85-15759

Dear Applicant(s):

The Department of Water Resources has received your water right application. Please refer to the number referenced above in all future correspondence regarding this application.

A legal notice of the application has been prepared and is scheduled for publication in the LEWISTON TRIBUNE on 4/17/2014 and 4/24/2014. Protests to this application may be submitted for a period ending ten (10) days after the second publication.

If the application is protested, you will be sent a copy of each protest. All protests must be resolved before the application can be considered for approval. If the protest(s) cannot be resolved voluntarily, the Department will conduct a conference and/or hearing on the matter.

If the application is not protested, the Department will process your application and notify you of any action taken on the application. If your application is approved, the Department will send you a copy of the permit.

Please contact this office if you have any questions regarding the application.

Sincerely,

A handwritten signature in black ink that reads "Keith Franklin".

Hi, Karen,

This is the one for the Lewiston Tribune – Nez Perce County.

Please publish the enclosed legal notice on the dates indicated, April 17 and 24, 2014, (once a week for two consecutive weekly issues). If you cannot publish the notice on the proposed dates, please contact us immediately.

Please also send a proof/preview copy on this one for my review before it actually hits the press. ☺

An affidavit of publication must be submitted to the Department along with the publication bill. Please send the affidavit and bill to this office before 5/5/2014. Your cooperation is appreciated.

Again – it is absolutely super to work with you. Many thanks, always.

Re: Application For Permit to Appropriate the Public Waters of the State of Idaho

Dear Mr. Cardwell:

The Department of Water Resources is seeking comment and/or recommendation from your agency, regarding an application for a new water right from ground water on the Lewiston Plateau, by Gregory Phillips. A copy of the application is attached for your reference. The applicant proposes the construction of a new well that will seek water from the Regional Aquifer within the Grande Ronde basalt formation.

Would you please submit your comments no later than May 14, 2014? If we do not hear from you by that date, we will assume that no comment from you, means you have no objection to, concerns about, or conditions pertaining to the issuance of this permit.

You may send comments by regular mail to the address above, by FAX to 762-2819 or by e-mail to keith.franklin@idwr.idaho.gov.

If you have any questions, don't hesitate to contact me at this office.

Thank you.

Sincerely,

Keith E. Franklin
Program Manager Northern Region

To: 'greg@lewiston.com'
Cc: Davis, Eric; Beardslee, Allen
Subject: Application for New Water Right Permit
Attachments: DOC002.pdf

Dear Mr. Phillips,

Attached you will find an application for a new water right that you and Eric Davis have been working on the last few days. Please review the application and if it meets with your approval sign and return the document to the Northern Region within the next 30 days. Also, the returned application needs to be accompanied by a check made payable to "IDWR" in the amount of \$250.00 to cover the processing fee. Processing cannot start without the filing fee.

Once the water right application has been received and in process, the department can move forward with the application for the well drilling permit.

Since an application for a new water right is up for public scrutiny the attached "Request For Expedited Issuance of a Drilling Permit" will need to be completed and returned along with the water right application. The time period to process a new water right application can take up to 60 days. There is risk in the construction of a new well ahead of the issuance of a water right permit, especially if the application for the new water right is protested.

Currently, the only authorized irrigation that can take place from the existing domestic well is up to ½ acre. The existing domestic well cannot be used to supplement or connected to the proposed new well and water right.

If you have any questions feel free to contact this office.

Sincerely

Keith E Franklin
Program Manager Northern Region
