To: Transfer 79192
From: Kerrie Mathews
Re: Transfer Evaluation

Transfer No. 79192 for water rights 13-2218 and 13-7180 proposes to add a point of diversion and change a point of diversion and combine the place of use for the rights.

Water right 13-130 is partially overlapping the place of use for water rights 13-2218 & 13-7180. Water right 13-130 is currently in the name of Benjamin Croshaw and placed on property owned by the applicant. Right 13-130 was not added to the transfer application per the instructions of James Cefalo. It is unclear if 13-130 is a valid water right and is not to be included in this transfer.

Authority to file:

Water rights 13-2218 & 13-7180 are currently in the name of Clark Cox. The current place of use is in the name of Clark Cox.

Validity of the Water Right:

Water right 13-2218 was licensed on June 16, 1972 and water right 13-7180 was licensed on September 20, 2013. Aerial photography shows consistent irrigation. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
