

MEMORANDUM

Date: March 26, 2014
To: Transfer 79129
From: Kerrie Mathews
Re: Transfer Evaluation

Transfer No. 79129 for water rights 25-7000 and 25-7007 proposes to add a point of diversion to each of the rights. Currently, each right lists a single, separate ground water well point of diversion. This transfer will list the two active city wells on both water rights.

Authority to file:

All of the water rights are currently in the name of the City of Ucon. The place of use, which is a municipal service boundary will not change.

Validity of the Water Right:

Water rights 25-7000 and 25-7000 were decreed on September 30, 2005. Forfeiture does not appear to be an issue.

Injury to Other Water Rights:

No injury to other water rights was identified. The application was advertised, no protests were received. An ESPA analysis was not conducted as the points of diversion are located in adjacent cells. The water master for WD120 was notified of the transfer and did not oppose the transfer.

Local Public Interest:

No issues identified.

Beneficial Use / Conservation of Water Resources:

No issues identified.

Review of the application finds there is not clear inconsistency with criteria set forth in Section 42-222 Idaho Code preventing processing of this transfer application.
