Re: Information Request for Water Right 95-16433

Hello Mr. Parmentier,

I am contacting you today because I have been assigned to do the field exam for your water permit. The circumstances of this water right allow us to conduct an in-office field exam given that we have all of the information. In reviewing your place of use, I came across a statutory claim (95-4417) in your name with a priority date on file of 1954. You have a water right (95-8347) that describes the diverting works of "well, pump & pipeline" with a condition that states domestic use is for 2 homes.

Could you please describe what you currently have running water to the property, how many homes this is for and the horsepower of any pumps? I have included 2 maps that you may use to mark down the location of these systems, both for the place of all diversions and where they bring the water to. Please return the maps once you have marked this information. Finally, please describe the use of the water in detail as well. Thank you in advance for the information that I have requested. Once I receive the information, I may be able to continue the licensing process for your property.

If you have any questions, do not hesitate to contact me at the information below.

Regards,

Patrick Kelly
