

MEMORANDUM

TO: Water Right File – 74-16005

FROM: Patrick Kelly – Water Resource Agent

DATE: April 4, 2014

SUBJECT: Review of Water Right File for Licensing

In overlap review for the property POU, I called Steve Bartlett to verify water use in the home since there is no domestic use associated with this water right. He informed me that they did use City water for water in the home. This information was gathered to recommend combined use limits in the license conditions.
