Allen:

I am writing to inform you that our clients have reached a settlement in the above matter. Unfortunately, on March 25, before the settlement could be signed, my client, Doug Elgan, suffered a stroke. He has been in the hospital recovering since that time. I am informed that he is doing well. His mind is sharp and aside from (perhaps) a few physical symptoms, he will recover. But, it will take some time.

I write to tell you this, so that you will know why there is a delay in getting the settlement documents to you. I have discussed this matter with Mike, though, this email will be further update for him as well.

Doug's son, Dwayne, has been my contact point during this time. We are in regular contact – but I have informed Dwayne that recovery is much more important than this matter at this time. I cannot say how long the delay will be, but assure you and Mike that the matter is not forgotten and will not fall through the cracks. I will do my best to get my end of this resolved as quickly as I can.

Thanks, Paul
