

CONVERSATION MEMORANDUM

To: 37-22858
From: Denise Maline 
Date: March 7, 2014 and April 8, 2014
Subject: Protest issues

I spoke to the applicant, David Daniel of 648 North LLC today regarding the protest filed by Big Wood Canal Co. Mr. Daniel was inquiring about why a domestic application was protested; how the protest process works, and what he needs to do next, etc. This application is for Domestic & Stockwater use and the protest is asking that the applicant reduce the cfs amount.

I suggested that he try to contact Craig Hobdey, attorney for the protestant, to discuss the specific protest issues and see if they can come to some sort of an agreement. I also let him know that if they do not reach an agreement on their own, then the department will then set up a pre-hearing conference.

Mr. Daniel indicated that he would try to contact Craig and see if they can talk about the issues. He may also try to contact Allen to see what else needs to be done.

April 8, 2014

After several phone conversations and e-mails back & forth between the parties; the protest has been withdrawn by Big Wood Canal Co. This is a conditional withdrawal based on the fact that the applicant reduces the cfs.
