Danielle,

Another possible duplicate exchange with Cody.

Cody,

After looking at everything that I have available to me right now, that's the way I see it.

So would the correct source on both 74-15622 & 74-01251 be 'Spring' tributary to 'Milk Creek'?

Cody,

Comparing permit 74-15622 with decree 74-01251, is see somewhat of a dilemma. Permit 74-15622 would be for the trough and headbox. I see that decree 74-01251 is from the Lemhi Adjudication and that it was not in the SRBA. I really don't have any information on what happened back in the late 1970s for that adjudication. I can see two possible explanations. One is that the source showing on the decree as 'Milk Creek' simply should have been 'Milk Creek Spring'. The second is that 'spring' was inadvertently dropped somewhere during the proceeding. I really can't explain it. The decree limited to the SWNE would appear to be for a site use and probably for the undeveloped spring back in the 70s.

In any event, the attached photo shows the trough for 74-15622.

Again I notice the address situation:

US Dept of Agriculture
Forest Service
50 Hwy 93 S
Salmon, ID 83467

Should be: 1206 S. Challis Street instead of 50 Hwy 93 S.

If there is anything I need to do to help with this fix, please let me know.

If you have any questions about this matter please contact me.

Thank you.
