Conditions of Approval:

1. R60 This right when combined with all other rights shall provide no more than 4.0 afa per acre at the field headgate for irrigation of the lands above.
2. 065 The right holder shall use the full allotment of appurtenant surface water rights in conjunction with groundwater diverted under this right and shall only divert groundwater under this right when water from the appurtenant surface water rights cannot be delivered to the right holder.
3. 048 The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse

4. 079 possession, waiver, equitable estoppel, estoppel by laches or customary preference. This right shall not be used if the surface water right(s) appurtenant to the place of use is sold, transferred, leased or used on any other place of use.
5. This right is limited to the irrigation of 77.1 acres within the place of use described above in a single irrigation season.
Rights 27-12267 and 27-12268 when combined shall not exceed a total annual diversion volume of 539.7 af at the field headgate and the irrigation of 134.9 acres in a single irrigation season.
The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
Right 27-07526, 27-7474 and 27-12268 are also diverted through the point(s) of diversion described above.
6. 049 The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.
