

CONVERSATION MEMORANDUM

TO: File No. 95-9560

FROM: Darla Block

DATE: February 25, 2014

SUBJECT: Extension Received & Phone Call to Permit Holder

On February 24, 2014, the Department received a Request for Extension of Time form requesting 3 more years before submitting proof of beneficial use on the above mentioned water right permit.

The permit holder already had an initial 5 year development period allowed under the permit issued on February 18, 2009. This extension is the only extension allowed, and could be filed for up to 5 more years.

Today I called and spoke with Daney Beach about the 3 year extension request filed yesterday. I explained that this would be the last extension allowed, and that they could file for up to 5 years on this extension. Mr. Beach informed me that he would like to leave his extension request as a 3 year extension. He also stated that they should be done within 1 year or so.
