REQUEST FOR EXTENSION OF TIME

To provide additional time in which to submit proof of beneficial use for a water right permit

The Idaho Department of Water Resources will consider this form a request that the permit holder(s) be granted an additional period of time under the provisions of Section 42-204, Idaho Code, in which to complete development of a water right and file proof of beneficial use of water. There is a **FILING FEE of \$50.00** to be included with this form when filed with IDWR.

Permit no. 95-9480 Date proof is due February 01, 2014
Name(s) of permit holder(s) Garwood Water Cooperative
Mailing address PO BOX 1137 City Hayden State ID Zip 83835
Telephone no. 208.667.0726 Email garwoodwater@gmail.com

Describe what work has been completed toward the development of this water right:

If no work has been completed, show "none".

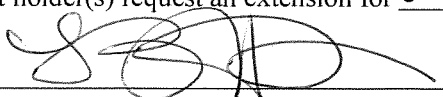

Garwood Water Cooperative is currently servicing approx. 130 active connections and has been working steadily toward the expansion of the distribution system. Work has been completed on two mainline extensions projects and an electrical and controls upgrade and we are currently in the process of developing an additional mainline extension as well as the addition of a small subdivision.

Costing \$ 400,000.00

The permit holder(s) has been unable to complete the remainder of the work for the following reasons:

Garwood Water Cooperative PWS ID1280225, a municipal provider under the terms and conditions of section 42-202 Idaho Code, is capable of providing water service to areas with reasonably high growth potential and in order to try to anticipate the future needs within the area identified on the attached future service area map (SA-2) the applicant has phased capital improvement projects to be completed as demand increases and monies become available during a 5 to 15 year planning horizon period. This approach has been taken to try to ensure that future infrastructure is developed in a steady but slow manner as not to tax the current infrastructure providing stability for the current customers and better ensuring capacity requirements are guaranteed for all who join.

Permit holder(s) request an extension for 5 year(s).

Signature (If other than permit holder, Power of Attorney must be supplied)

Date

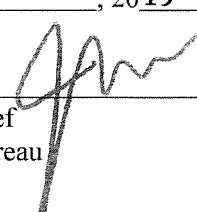

ACTION OF THE DEPARTMENT OF WATER RESOURCES

The Department has reviewed the explanation for delay and concludes the reason(s) for delay meets the requirements for approval of the Request for Extension of Time as provided by Section(s) 42-204 and/or 42-218, Idaho Code.

☐ **IT IS HEREBY ORDERED** that the permit is **REINSTATED** with the priority date advanced to _____, 20____.

☒ **IT IS HEREBY ORDERED** that the above request for extension of time is **APPROVED**, and the time within which to submit proof of beneficial use is extended to February 01, 2019.

Signed this 20th day of March, 2014

Jeff Peppersack, Chief
Water Allocation Bureau

KOOTENAI COUNTY, IDAHO

A map of the Hayden Project area in Idaho. The map shows the Hayden Project site, which is a large, shaded rectangular area. To the west of the site is the town of Rathdrum, and to the south is the town of Hayden. The map also shows several lakes: Twin Lakes to the northwest, Chico Lake to the northeast, Alpine Lake to the east, and Hayden Lake to the southeast. Major roads are labeled: HWY 41 running north-south through Rathdrum, HWY 53 running east-west through Rathdrum, and HWY 95 running north-south through the project site. A north arrow is located in the lower-left quadrant of the map.
